Girl Zines Alison Piepmeier, 2009-11-01 The first book-length exploration of the quirky feminist booklets With names like *The East Village Inky*, *Mend My Dress*, *Dear Stepdad*, and *I'm So Fucking Beautiful*, zines created by girls and women over the past two decades make feminism's third wave visible. These messy, photocopied do-it-yourself documents cover every imaginable subject matter and are loaded with handwriting, collage art, stickers, and glitter. Though they all reflect the personal style of the creators, they are also sites for constructing narratives, identities, and communities. *Girl Zines* is the first book-length exploration of this exciting movement. Alison Piepmeier argues that these quirky, personalized booklets are tangible examples of the ways that girls and women 'do' feminism today. The idiosyncratic, surprising, and savvy arguments and issues showcased in the forty-six images reproduced in the book provide a complex window into feminism's future, where zinesters persistently and stubbornly carve out new spaces for what it means to be a revolutionary and a girl. *Girl Zines* takes zines seriously, asking what they can tell us about the inner lives of girls and women over the last twenty years.

Multimodality in Writing Arlene Archer, Esther Breuer, 2015-06-29 Multimodality in Writing attempts to generate and apply new theories, disciplines and methods to account for semiotic processes in texts and during text production. It thus showcases new directions in multimodal research and theorizing writing practices from a multimodal perspective. It explores texts, producers of texts, and readers of texts. It also focuses on teaching multimodal text production and writing pedagogy from different domains and disciplines, such as rhetoric and writing composition, architecture, mathematics, film-making, science and the newsroom. Multimodality in Writing explores the kinds of methodological approaches that can augment social semiotic approaches to analyzing and teaching writing, including rhetoric, Systemic Functional Linguistics, ethnographic approaches, and genre pedagogy. Much of the research shows how the regularities of modes and interest of sign makers are socially shaped to realize convention. Because of this, the approaches are strongly underpinned by social and cultural theories of representation and communication.

After the Public Turn Frank Farmer,2013-04-15 In *After the Public Turn*, author Frank Farmer argues that counterpublics and the people who make counterpublics—"citizen bricoleurs"—deserve a more prominent role in our

scholarship and in our classrooms. Encouraging students to understand and consider resistant or oppositional discourse is a viable route toward mature participation as citizens in a democracy. Farmer examines two very different kinds of publics, cultural and disciplinary, and discusses two counterpublics within those broad categories: zine discourses and certain academic discourses. By juxtaposing these two significantly different kinds of publics, Farmer suggests that each discursive world can be seen, in its own distinct way, as a counterpublic, an oppositional social formation that has a stake in widening or altering public life as we know it. Drawing on major figures in rhetoric and cultural theory, Farmer builds his argument about composition teaching and its relation to the public sphere, leading to a more sophisticated understanding of public life and a deeper sense of what democratic citizenship means for our time.
