Rewards for Kids! Virginia Marie Shiller,Meg F. Schneider,2003 Finding a way to encourage preschoolers and elementary school children to behave well without resorting to scolding, threats, or bribery is a parent's number one challenge. In Rewards for Kids! psychologist and child-development expert Dr. Virginia M. Shiller explains why it works to catch them doing something good. Reward, not bribery, is the key. Dr. Shiller shows parents how to use a variety of child-friendly sticker charts and other tools to help children improve their behavior. This proven positive-parenting technique has been used to help kids overcome such common behavior problems as bedtime procrastination, doing chores, getting along with siblings or friends, getting ready for school and other events on time, and completing homework without fuss. In clear, easy steps, parents will learn creative ways to change their children's problem behavior using an individualized plan that will help children feel good about their new accomplishments. Along the way, Dr. Shiller communicates a great depth of understanding about the needs of children and the many ways of engaging them. The numerous pull-out charts, awards, and certificates are designed to appeal to boys and girls of different ages, ensure plenty of variety, and can be personalized by coloring and decorating them with photos and stickers. This book can make disciplining kids effectively both constructive and fun.

The Entitlement Trap Richard Eyre,Linda Eyre,2011-09-06 Dump the allowance-and use a new Family Economy to raise responsible children in an age of instant gratification. Number-one New York Times bestselling authors Richard and Linda Eyre, have spent the last twenty-five years helping parents nurture strong, healthy families. Now they've synthesized their vast experience in an essential blueprint to instilling children with a sense of ownership, responsibility, and self-sufficiency. At the heart of their plan is the Family Economy complete with a family bank, checkbooks for kids, and a system of initiative-

building responsibilities that teaches kids to earn money for the things they want. The motivation carries over to ownership of their own decisions, values, and goals. Anecdotal, time-tested, and gently humorous, *The Entitlement Trap* challenges some of the sacred cows of parenting and replaces them with values that will save kids (and their parents) from a lifetime of dependence and disabling debt.

The Zones of Regulation Leah M. Kuypers, 2011 ... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called zones, with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD.--Publisher's website.

Discipline for Life Madelyn Swift, 1999 What we teach with our discipline at ages 2, 5, and 12 will return to help or haunt us during the child in question's adolescence. The tips, traps, and stories found in this book help us discipline effectively today yet keep an eye toward the future.

Well Done, Bing! , 2020-03-05 A fantastic Bing reward chart sticker book that will encourage good behaviour in

preschoolers. Reward little ones with Bing stickers for completing everyday tasks such as tidying up, sharing, brushing their teeth and toilet training. The stickers are reusable so once they've filled in their chart for the week, you can pull them off and use them again the following week.

Verbal Perseveration Jacqueline Ann Stark,2007 Introductory textbooks on neurogenic communication disorders associated with aphasia and brain injury do not provide full documentation of the pervasive influence of perseveration in the diagnosis and treatment of clients with severe language processing deficits. This special issue of *Aphasiology* aims to revive the profound interest in verbal perseveration observed in the classical German literature between 1890 and 1931. Various aspects of the phenomenon of perseveration are addressed in this issue. When and under what circumstances do perseverations occur? What are the characteristics of perseverative errors and how do they relate to non-perseverative sound and word errors? The papers share a common goal, namely to understand the origin of the phenomenon 'perseveration' in healthy subjects and clients with brain damage and injury. An overarching claim throughout the papers is that perseveration reflects the client's primary language processing deficits.

Behavior Mapping Amy Buie,2013-09-19 A manual for creating visual maps to help students whose primary learning style is visual become better problem solvers by literally showing them cause and effect and choices in various situations. The ultimate goal is to make students more successful learners and reduce the incidence of unacceptable behavior.-- Publisher.

Behavior Charts and Beyond ... Tracy Milanese,1998 Behavior charts as a means of communication for parents, students, and teachers to increase appropriate behavior.

If Then Chart Doorposts,2003-04-02 This chart is designed to help you be more consistent in disciplining your children. When children disobey, this chart helps parents know what to do and helps children know what to expect. The first column lists common areas of misbehavior (arguing, complaining, hitting, defiance, etc.), each illustrated with a simple cartoon. The center column gives a Bible verse relating to each sin. The third column is blank, for you to complete with the agreed-upon consequences for each misbehavior. The instructions offer suggestions, but you choose your own disciplinary actions. You can cut out the pre-lettered consequences and glue them onto the chart, or write in your own.
