Most ideas, no matter how brilliant they may seem, never actually end up becoming a business. This book explains how to: Look for new small business ideas. Evaluate ideas for their commercial potential. Unlock the strategies that turn an idea into a business. English's focus is on finding the seed of an idea and the process of developing it into a genuine business opportunity. He includes practical diagnostic 'reality checks' developed in his small business workshops. He also includes an analysis of changes in the Australian small business environment as result of Covid-19. This practical volume is ideal for any budding entrepreneur looking for guidance on how to evaluate a business opportunity and build a commercial strategy around it. It will also be an ideal secondary reading for books on entrepreneurship and small business courses.

ASP.NET 2.0 Website Programming Marco Bellinaso,2006-05-08 ASP.NET 2.0 Programming: Problem Design Solution is aimed at describing, designing, and implementing a site much like the ones you're probably working on or will be soon, while taking the opportunity to introduce and explain many of the new features that the new great ASP.NET 2.0 framework offers. Difficult problems are addressed head-on so you'll be ready for most of the problems you'll typically face when writing a modern website, and have one or more solutions ready for them. The entire book and site has been written specifically for ASP.NET 2.0, to use the ASP.NET 2.0 features wherever they make sense. The end-result is a website which features a layout with user-selectable themes, a membership system, a content management system for publishing and syndicating articles and photos, polls, mailing lists, forums, an e-commerce store with support for real-time credit card processing, homepage personalization, and localization. The book leads the reader through development of a site with: Account registration, personalization and theming News and events, organized into categories Opinion polls Newsletter Forums E-commerce store with shopping cart and order management Localization Administration of a site will be covered including: Full online back-end administrative section, to manage practically all data from an intuitive user interface Site deployment In building these site features, you'll learn these new ASP.NET 2.0 features: Master pages Theming Personalization & Web parts Membership & Profile modules Personalization The new server-side UI controls such as GridView, DetailsView, FormView, Wizard, MultiView, the new xxxDataSource and navigation controls, among others. The Home Edit Clea Shearer,Joanna Teplin,2019-03-19 NEW YORK TIMES BESTSELLER • From the stars of the Netflix series Get Organized with The Home Edit (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. “A master class on how to arrange even your most unattractive belongings—and spaces—in an aesthetically pleasing and easy-to-navigate way.”—Glamour (10 Books to Help You Live Your Best Life) Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it’s not hard to do—in fact, it’s a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea’s signature approach to decluttering. The Home Edit walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don’t need another do-over in six months. When you’re done, you’ll not only know exactly where to find things, but you’ll also love the way it looks. A masterclass and look book in one, The Home Edit is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there’s nothing like a little ROYGBIV to soothe the soul). Above all, it’s like having your best friends at your side to help you turn the chaos into calm. Includes a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397).
