Buses and Coaches 1945-70: From Contemporary Adverts Gavin Booth,2022-11-30 From 1945 to 1970, trade press advertisements for buses and coaches changed considerably, as the UK adjusted to post-war life. The austerity of the early post-war years led to major manufacturers working to develop new models while also trying to help improve the UK economy. This attracted new entrants to the market - truck manufacturers wanting new opportunities and a legion of smaller coachbuilders catering to operators that were desperately trying to get hold of new and rebodied coaches to meet the demands of the post-war travel boom. Using a wide range of adverts, this book shows how these smaller manufacturers often fell by the wayside as the market came to be dominated by a group of builders that understood the importance of keeping their names in front of potential buyers. This was achieved by using ever slicker adverts and sometimes making outrageous claims that would never be permitted today. With over 180 period adverts spanning 25 years, this stunning volume tracks the advertising history of Britain's biggest bus and coach brands in their efforts to win sales.

Template Mixing and Mastering Billy Decker,2020-09-21 Audio production is an incredibly rewarding craft. To take the raw, basic tracks of a fledgling idea and shape them into one glorious stereophonic sound wave is an amazing feat. The transformation from analogue to digital dominance has brought many advances in sound quality and new techniques, but producing digital music with only a standard computer and DAW can be problematic, time-consuming and sometimes disappointing without the right approach and skills. In *Template Mixing and Mastering*, renowned mix engineer Billy Decker tackles the challenges of in-the-box production through his innovative template approach. He shares his passion and knowledge from over twenty years of industry experience, including an introduction to templates and a step-by-step guide to their set-up and a discussion of drum replacement technology. Channel and setting information for each of the drum,

instrument and vocal sections of his template is discussed along with the master channel and his methodology of mixing and mastering. Finally, he gives professional advice and best practice.
