*Posters, Propaganda, and Persuasion in Election Campaigns Around the World and Through History* Steven A. Seidman, 2008 How effective are election campaign posters? Providing a unique political history, this book traces the impact that these posters - as well as broadsides, banners, and billboards - have had around the world over the last two centuries. It focuses on the use of this campaign material in the United States, as well as in France, Great Britain, Germany, South Africa, Japan, Mexico, and many other countries. The book examines how posters evolved and discusses their changing role in the twentieth century and thereafter; how technology, education, legislation, artistic movements, advertising, and political systems effected changes in election posters and other campaign media, and how they were employed around the world. This comprehensive and original overview of this campaign material includes the first extensive review of the research literature on the topic. *Posters, Propaganda, and Persuasion* will be useful to scholars and students interested in communications, politics, history, advertising and marketing, art history, and graphic design.

**The Political Campaign Handbook** Arnold Steinberg,1976

*Inside the Local Campaign* Alex Marland,Thierry Giasson,2022-07-22 Inside the Local Campaign reveals what goes on in constituency campaigns during a Canadian election. For decades, the media has focused primarily on the national campaign and party leaders, and the practice of canvassing for votes by candidates and their supporters has been seen as more tradition than science. But things have evolved with digital media. Local-level campaigning is more fashionable - and critical for gathering data that can be used post-election. Using the 2021 federal campaign as an anchor, an impressive collection of authors and practitioners discusses local-level campaigning in electoral districts across the country, highlights local trends and on-the-ground roles, and discloses hidden details about how local campaigns are run.

**Literary Interventions in the Campaign Biography** Michael J. Blouin, 2021-11-28 Literary Interventions in the Campaign Biography considers campaign biographies written by major authors including Nathaniel Hawthorne, William Dean Howells, Lew Wallace, Jacob Riis, and Rose Wilder Lane. Whereas a number of cultural historians have previously considered campaign biographies to be marginal or isolated from the fictional output of these figures, this volume revisits the biographies in order to understand better how they inform, and are informed by, seismic shifts in the literary landscape. The book illuminates the intersection of American literature and politics while charting how the Presidency has developed in the public imagination. In so doing, it poses questions of increasing significance about how we understand the office as well as its occupants today.

**Campaign Craft** Daniel M. Shea, Michael John Burton, 2001 Shea and Burton present an updated and expanded version of Shea's 1996 guide to and analysis of modern American political campaign communication. They cover all aspects of present-day political campaigns, from understanding the context of a particular campaign to strategic thinking to specific voter contact techniques. Shea and Burton present an updated and expanded version of Shea's 1996 guide to and analysis of modern American political campaign communication. Bringing to bear both academic and professional experience, they cover all aspects of present-day political campaigns from understanding the context of a particular campaign (national trends, the media market, demographic research, etc.) to strategic thinking (developing an overall theme and strategy), and to specific voter contact techniques (the tactical use of fundraising, paid media, free media--including the Internet--and get-out-the-vote drives). Throughout the text, Shea and Burton's discussion and analysis is peppered with examples from national, state-level, and local campaigns. This comprehensive guide is must reading for all those interested in the campaign process, including candidates and political activists as well as scholars, researchers, and students involved with American politics and political communication.

**How to Run for Political Office and Win** Melanie Williamson, 2011 The American Government, including the national, state, and local levels, has more than 400,000 elected and appointed public officials according to a New York Times estimate. That number, more than the number of people who work for most major companies, is a tell-tale sign of just how important the political system is in this country. To become part of it however, and realize your dream of running and being elected to local office, you need to know exactly what will be expected of you, what is going to come up during the campaign, and how much time and energy the process might take out of your life. This book is written to guide every potential new politician down the path of filing for, gathering support, and running for local office, whether you are a lawman, judge, politician, or concerned parent. You will start by reading a complete list of everything you need to know about the process of running for office, from the rules that govern your conduct, to the timeline you can expect to start living. You will learn how to organize your resources and start hiring campaign staff. You will learn how to start creating a database of donors and individuals who

can be called or contacted when drumming up support. You will be walked through the process of dredging up your own past and disclosing everything you can about yourself to offset the potential for negative campaigning by your opponent. Successful local politicians and campaign staff have been interviewed for this book and have provided detailed information about what you can expect when you start the process of running for office, from the door to door walking to the campaign literature and signs that must be created. You will learn the ins and outs of campaign fundraising and how to acquire the best possible endorsements to your campaign. You will learn what events you should be appearing at and how to start gaining access to television commercial air time. Finally, you will be walked through the phone bank and survey process on the road to the primaries and through the primaries to what you can expect on Election Day. From start to finish, you will learn everything you need to know to effectively run and win your campaign for local office with this book. **Quarterly Review of Military Literature** , 1987

The Marketing of the President Bruce I. Newman, 1994 Winning a presidential election is like operating a successful business. The best and most successful businesses are customer driven. The Marketing of the President documents how political candidates are marketed by the same sophisticated techniques that experts use to sell legal and medical services. Newman addresses issues of serious concern to the health of the political process as he examines the roles of positioning, polling, direct mail, 900 numbers, and television in advertising. Using the 1992 presidential election as a case study, this extraordinary volume reveals how the American political process has been transformed - for better or worse - by the use of marketing techniques. The Marketing of the President important reading for marketing professionals and students interested in nonprofit applications of marketing concepts, or for political scientists and policymakers who are concerned about the increasing role of marketing in political campaigns.
