Theory and Practice of Computation Shin-ya Nishizaki, Masayuki Numao, Jaime Caro, Merlin Teodosia Suarez, 2013-06-01 This book comprises the refereed proceedings of the Workshop on Computation: Theory and Practice (WCTP)-2012, held in Manila, The Philippines, in September 2012. The workshop was organized by the Tokyo Institute of Technology, the Institute of Scientific and Industrial Research-Osaka University, the University of the Philippines Diliman, and De La Salle University-Manila and was devoted to theoretical and practical approaches to computation. The 22 revised full papers presented in this volume were carefully reviewed. They deal with biologically inspired computational modeling, programming language theory, advanced studies in networking, and empathic computing.

Israel in the Making Hagar Salamon,2017-03-27 The brilliant kaleidoscope of everyday creativity in Israel is thrown into relief in this study, which teases out the abiding national tensions and contradictions at work in the expressive acts of ordinary people. Hagar Salamon examines creativity in Israel's public sphere through the lively discourse of bumper stickers, which have become a potent medium for identity and commentary on national and religious issues. Exploring the more private expressive sphere of women's embroidery, she profiles a group of Jerusalem women who meet regularly and create folk embroidery. Salamon also considers the significance of folk expressions at the intersections of the public and private that rework change and embrace transformation. Far ranging and insightful, *Israel in the Making* captures the complex creative essence of a nation state and vividly demonstrates how its citizens go about defining themselves, others, and their country every day.

Discover Your Soul Template Marcus T. Anthony,2012-02-22 How to create the life you want in alignment with your soul's purpose • Reveal your soul aptitudes, limiting behaviors, and past-life karmic issues • Discover 14 easy-to-use spiritual tools to strengthen your intuition to profound levels and develop an inner source of guidance and wisdom for any situation • Learn why the Law of Attraction doesn't work for most people and how to make it work for you Like an enlightened spiritual teacher, you, too, can tap in to the infinite wisdom of the cosmos to create a life of deep meaning and purpose. The key is integrated intelligence--your innate capacity, often experienced as "intuition," to instantly draw upon knowledge beyond the confines of the five senses, from past, present, and future. Integrated intelligence enables not only a connection to the wisdom of the universe but also access to your soul template, revealing your self-limiting behaviors, karmic issues from past lives, and soul aptitudes--the abilities at which you excel. With knowledge of your soul template, you can successfully create the life you were meant to live in alignment with your soul's purpose. Providing 14 easy-to-use spiritual tools to activate your integrated intelligence, Marcus Anthony shows you how to tap in to the wisdom of your soul template, distinguish the voice of ego from the voice of your inner sage, and strengthen your intuition to profound levels, thereby developing a trusted inner source of guidance. Explaining how the mind is not a shallow pond but an ocean of competing voices and energies, he reveals why the Law of Attraction doesn't work for most people: any vision you attempt to manifest must be aligned with your soul template or the competing voices will act against it. Revealing how to bring the mind into presence to get "the secret" to work for you, Anthony shows how to use integrated intelligence to identify and live your true calling and create the life you want while fulfilling the deeper needs of your spirit.
