Smarter Food Procurement in the Public Sector Great Britain: National Audit Office,2006-03-30 The public sector in England spends around £2 billion per year on food and catering services, including in schools, hospitals and armed forces bases. This NAO report examines how public sector organisations can improve their food procurement practices in order to reduce costs whilst maintaining the quality of meals provided. The report finds that the public sector could achieve efficiency gains of £224 million by 2010-11, with significant scope for improvement in relation to: developing market knowledge and buying practices; employing joint procurement to increase purchasing power; establishing greater transparency in contract caterers' charges; promoting the professional development of catering staff in the public sector; reducing costs and environmental impacts through efficient operational practices; and increasing the take up of meals and income generated by them. Two accompanying documents are available separately: Case studies (HCP 963-II, ISBN 0102937435) and a Good practice guide (HCP 963-III, ISBN 0102937443).

Nutrition in Institutions Maria Cross,Barbara MacDonald,2009-01-26 The importance of good nutrition for individual health and well-being is widely recognized, yet for a significant number of people who rely on institutions for food and

nutrition, this importance has not always been a primary consideration. People, therefore, may find themselves consuming food they would not ordinarily choose to eat, with, in some cases, restricted choices precluding individual preferences and compromising health. In recent years, there have been major advances in the quality of catering in some areas, particularly schools. Other institutions which have not been thrust into the media spotlight have fared less well in terms of policy drive and commitment. This insightful new book looks in detail at five institutions: schools, hospitals, care homes for the elderly, prisons and the armed forces. As well as providing a fascinating history of the provision of food in each institution, each section considers: current policy and standards and their implementation adequacy of food provided with regard to the health status and dietary requirements of the people in the care of each institution efficiency of catering organization and issues relating to contract tendering, expenditure and procurement A broad spectrum of further relevant issues is also covered, including the meaning of food to those in institutions and determinants of choice.

Catering Bruce Mattel, The Culinary Institute of America (CIA), 2015-03-16 *Catering: A Guide to Managing a Successful Business Operation*, Second Edition provides the reader with the tools to fully understand the challenges and benefits of running a successful catering business. *Catering* was written as an easy-to-follow guide using a simple step-by-step format and provides comprehensive coverage of all types of catering. This is a significant contrast to other texts which are geared to a specific segment of catering such as on-premise, off-premise, or corporate dining. The graduate who decides to enter into catering will be charged with providing the “restaurant” experience to their clients and optimizing profits for their employer. *Catering* will assist them in achieving these goals.

A Meeting Planner's Guide to Catered Events Patti J. Shock, John M. Stefanelli, 2008-10-20 Food and beverage is the largest portion of a meeting budget, but most meeting and event planners have no formal background in purchasing and managing this expense. This guide helps event, meeting, and convention planners save money, negotiate contracts, deal with catering managers, and successfully manage the food and beverage aspect of their event. Covering everything from styles of service to on-premise and off-premise considerations to food and beverage contract negotiation, this book is a comprehensive and accessible reference for event planners and students.

Inequality and Flourishing Mariama Ifode- Blease, 2022-06-30 It is no surprise that Christians have long been involved in education - the quest for human flourishing and wholeness is at the heart of the gospel, and education is critical to that quest. Good education has the power to transform our relationships with ourselves, with each other, with and within communities and ultimately between nation states. But what is surprising is our theological silence in the face of the deep injustices which lie at the heart of our education system. In *Inequality and Flourishing*, Mariama Ifode-Blease explores and exposes these inequalities, and calls for a greater remembrance of the bountiful and daunting gift of stewardship we have as we educate young people. Drawing on interviews, she offers a fresh vision of education as being about giving children the

best tools to be stewards of their minds and bodies, our communities and ultimately our planet.

Empire, War & Cricket in South Africa Dean Allen, 2015-04-08 Cecil John Rhodes once said he had only met two creators in South Africa: himself and James Douglas Logan, the Scottish-born founder of Matjiesfontein. Logan immigrated to South Africa in 1877 at the age of nineteen and almost immediately began amassing a fortune through business, politics and his high-profile association with that most favoured of imperial pastimes - cricket. *Empire, War & Cricket in South Africa* explores in detail how Matjiesfontein was created and how Logan developed this little Karoo town into a renowned health resort, attracting the rich and famous - including South African novelist Olive Schreiner and England cricketer George Lohmann. But, above all, this is the untold story of how James Logan was instrumental in developing the game of cricket in South Africa at a time when the country was heading towards war with the British Empire. In *Empire, War & Cricket in South Africa*, readers will learn how one of the first international cricket matches between South Africa and England took place at Matjiesfontein; explore the controversial 1901 South African cricket tour to England in the midst of the Anglo-Boer War; read the amazing story of how Logan once had the captain and manager of England's cricket team arrested as they boarded their ship home; and discover Logan's close relationship with Rhodes and how their 'shady dealings' brought down the premier's first government. Illustrated throughout with rare photographs and documents, *Empire, War & Cricket in South Africa* is a unique social and political history of the workings of the British Empire in South Africa during the late nineteenth century; a well-researched and fascinating biography of the man who gave us Matjiesfontein; and an entertaining and at times unbelievable story of cricket's origins in South Africa.
