Analysis of Strategic move by Chipotle Ernesto Paiz,Dave Anderson,Ryan Barone,Brian Bollinger,Kristina Calderon,Frank Lin,Mark Toguchi,2011-06-06 Project Report from the year 2011 in the subject Business economics - Company formation, Business Plans, grade: B, Santa Clara University, language: English, abstract: Chipotle Mexican Grill, hereafter referred to as Chipotle, is a fast-casual restaurant that specializes in a limited menu mainly consisting of burritos, tacos and burrito bowls. Chipotle is known for its ability to offer products made from sustainable, organic ingredients, while remaining price competitive with other fast food chains. Chipotle refers to this differentiation as “food with integrity” and it is the driving force that has propelled the company to where it is today. Since its foundation in 1993, Chipotle has been tremendously successful, growing into a corporation that is now worth roughly \$8.5 billion (56). Chipotle’s growth is a direct result of the quality of its products, the consistency of its service and the perceived differentiated value it has established in the minds of consumers. Chipotle stands apart from others in a highly concentrated industry because it does business differently in terms of its food, restaurants and advertising. While most fast food chains rely on advertisements that promote menu gimmicks, such as limited-time price reductions, new items, value menu offerings and more, Chipotle focuses on showcasing its quality ingredients. It also generates excitement for its food through a number promotional events and word of mouth. Strategic Move Even though the restaurant and bar industry is saturated, there are not many competitors that offer organic ingredients within the industry. To take advantage of the recent surge of consumers who demand healthier, organic food, Chipotle has decided to enter into the fast-casual Asian restaurant market with a new chain named ShopHouse Southeast Asian Kitchen, hereafter referred to as ShopHouse. Staying true to its position as a focused differentiator, Chipotle will operate ShopHouse under the same philosophy that has made it so successful, offering sustainable gourmet ingredients at reasonable prices.

Marketing Analysis Chipotle Mexican Restaurant and Applebee's Restaurant Kimberly Wylie,2009-06 Seminar paper from the year 2003 in the subject Business economics - Business Management, Corporate Governance, University of Phoenix, 5 entries in the bibliography, language: English, abstract: The following paper compares the marketing strategies employed by two successful restaurants, Chipotle Mexican Grill and Applebee's Neighborhood Grill & Bar. This analysis will include an overview of each restaurant's business, their current sales trends, and their specific target market. In addition, company

brands will be discussed, as well as their manner of distribution, promotion methods, and pricing. With these factors determined, each company's specific advantages and strengths will then be given. From there, a comparison of the two companies marketing strategies will be examined, including an overview of each company website, the strengths and weaknesses of these sites, and which features I personally preferred.

Chipotle Mexican Grill Russell Walker, Greg Merkley, 2017 By any measure, Chipotle Mexican Grill was a success story in the restaurant business. It grew from one location in 1993 to over 2,000 locations by 2016 and essentially created the fast casual dining category. Its stock appreciated more than 1,000% in the ten years following its 2006 IPO. However, after more than 20 years without a major reported food safety incident, Chipotle was revealed as the source of multiple outbreaks of illness from norovirus, salmonella, and E. coli that sickened nearly 600 people in 13 states in 2015. The company closed stores, spent several months under investigation by the U.S. Centers for Disease Control and Prevention (CDC) and other health organizations, and faced a criminal investigation in connection with the incidents. After a much-publicized closing of all of its stores on February 8, 2016, and numerous changes to its food sourcing and preparation practices, Chipotle tried to win back customers with dramatically increased advertising and free food promotions. However, on April 26, the chain announced its first-ever quarterly loss as a public company. Same-store sales for the first quarter were 29.7% lower than in the previous year. Operating margins fell from 27.5% to 6.8% over the same period, and the company's share price was down 41% from its summer 2015 high.

A case study of Chipotle Mexican Grill. What are the key factors for the competitive success of the company?

Joe Wessh, 2019-08-13 Essay from the year 2019 in the subject Business economics - Business Management, Corporate Governance, grade: 4.6, University of Toronto, language: English, abstract: Despite the industry within which a company operates, there are various key success factors that enable a company to survive and develop. Key success factors are an essential part of the company's competitive success and it is this important that the company pay a considerable attention to them. The elements of a company must correspond with the key success factors required in the industry in order for it to survive and grow. As far as the case is concerned, the fast-casual restaurant industry is heavily competitive, making it hard for most of the restaurants to survive and remain successful. Six major rivals; Burger King Corporation, Jack in the Box, McDonald's, Wendy's Group, Starbucks and Yum! Brands, occupy about 40 percent of the market. The remaining 60 percent consists of smaller competitors such as Panera, Panda Express and Chipotle Mexican Grill. Each competitor offers distinguishable products aligned with their core capabilities. Hence, the intense threat of rivalry in this industry requires restaurants to be distinctive and innovative so that they can achieve a competitive edge. Those restaurants that are unable to maintain a constant competitive advantage end up failing.

Crazy for Chipotle Lynn Nusom, 2004 The Rich Smoky Chipotle Chile, discovered long ago by ancient Mesoamerican

cultures, has been passed down through the generations and is now the latest trend in Southwest kitchens. Made from smoked and dried jalapenos, these chiles present complex, intriguing hints of chocolate and nuts. Crazy for Chipotle takes those age-old flavors and adds them to modern recipes sure to perk up taste buds all across the country. Book jacket.

The Chipotle Effect Paul Barron,2012-05-01 The changing landscape of the American Social Consumer is shifting rapidly and these changes are having a major impact on future of restaurants demonstrated in this new book by Paul Barron, renowned entrepreneur, publisher, founder of FastCasual.com and restaurant industry innovator.

Chipotle Mexican Grill Inc Alan Nathan Hoffman,2014 Founded by Steve Ells in 1993, Chipotle Mexican Grill quickly became one of the fastest growing restaurant chains in US history. People loved Chipotle because of the tasty and healthy food as well as its edgy, trendy, cool brand image. Chipotle established itself as a successful company practicing conscious capitalism by serving food with integrity - its supply chain and corporate culture were closely integrated from the time that ingredients were farmed, raised, harvested, and shipped to stores to the time the final product was placed on a customer's serving tray.By 2014, the fast-casual food market in the US became increasingly competitive and crowded with many new entrants, especially traditional fast food players who were attracted by the double-digit revenue growth. Being a public listed company, Chipotle had to meet Wall Street's high expectations of growth and earnings. Living up to analysts' expectations was becoming increasingly difficult for Chipotle.

Chipotle Mexican Grill Inc. - Case Study Daniel Krier,2014-12-15 Dan Krier reviews Chipotle's current business strategies and vision. He then uses that information to make strategic recommendations for the company's future.
