Getting In Paris H. Grey, David G. Oppenheimer, 2023-05-26 For undergraduates in STEM fields, the experience of working in a lab or other research position has become an increasingly important credential for many career paths. Landing such a position can be difficult, with hundreds of applicants for perhaps a dozen openings in the most competitive cases. But finding a meaningful research experience also involves knowing what to look for and how to present yourself effectively, skills that represent a hidden curriculum for many students. In this book, an expert lab manager and a longtime principal investigator share their secrets for securing these positions, both in summer undergraduate research programs and in labs operating during the academic year. They offer advice on the application and interview processes for undergraduates who often do not know how to prepare appropriately professional emails, cover letters, CVs, and interview responses. They address students in a wide variety of STEM fields at both research-intensive universities and primarily undergraduate institutions. And they focus on how first-generation college students and those from low-income backgrounds and communities historically underrepresented in science can learn to negotiate the hidden curriculum and claim their place in

research settings. This new edition also serves as a companion to the authors' social accounts, including @YouInTheLab and @TheLabMentor, where they offer advice on lab life at many levels--

Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

Supporting Trans People in Libraries Stephen G. Krueger, 2019-10-16 Designed to provide practical information to library workers of all types, this book offers specific strategies for supporting trans people in their libraries. As trans people (including those on the nonbinary spectrum) start to feel safer expressing their identities in public, libraries are making an effort to show that they welcome people of all gender identities. Yet there are many potential barriers to actively supporting trans people, including lack of knowledge about the needs of the trans community and lack of funding or institutional support. This book, written entirely by trans library workers, is designed to dismantle some of these barriers. *Supporting Trans People in Libraries* is relevant for library workers of any background and position. People with little knowledge about trans identities can start with the opening introductory chapters, while those looking for guidance on a specific situation—such as adding all-gender restrooms, interacting respectfully with trans coworkers, deciding what information to require on library card applications, writing inclusive job postings, making collection development decisions, and more—can

jump to a particular chapter. For each topic, there are sections on easy fixes, best practices, and example language. Readers can easily adapt the information to benefit their libraries and communities in concrete ways.
