Montessori: Map Work Bobby George, June George, 2014-07-15 As with all things Montessori, students begin with the concrete and move to the abstract. When learning geography, students first develop an understanding that the earth is a round globe, made up of land and water. They then manipulate the shape of each continent before addressing its name and location. *Montessori: Map Work* introduces readers to the seven continents via textured edges to trace with their fingers, modes of transportation between each one for spatial context, and illustrated native animals for relevant and meaningful associations. Young children will absorb the age-appropriate geography and gain a better sense of their place in the world. Praise for *Montessori: Map Work* This ingeniously designed book follows the Montessori way of teaching children concrete concepts in an accessible way. --School Library Journal
