How to Use Decodable Books to Teach Reading Pamela Brookes,2019-09-29 Sixty-five percent of U.S. fourth graders are not proficient readers because their teachers have not been taught how to teach reading using evidence-based methods. Up to 20% of children have dyslexia. Few receive the individualized teaching they need from their schools. To help parents and teachers who want to teach their children using an evidence-based, effective method, Pamela Brookes, the mother of a

child with dyslexia, discusses their daily routine as she teaches her daughter to read using the decodable DOG ON A LOG Books series. As the author of DOG ON A LOG Books, Pamela also shares how to choose where in the series to start. She shares how she teaches each of the phonics rules used in the book series along with the reasons for teaching the syllable types and handwriting. Although this booklet is meant to guide parents and teachers using DOG ON A LOG Books, the information can be adapted and applied to any systematic series of decodable books. How to Use Decodable Books to Teach Reading is edited by Dr. Nancy Mather, a professor in learning disabilities, reading, and writing to make sure it follows the scientific research on teaching reading. This edition includes information on Steps 1 to 10 of the DOG ON A LOG phonics rules. Additional steps will be added as the future decodable chapter books are created. All DOG ON A LOG Books follow a structured literacy/Orton-Gillingham based phonics sequence. You can download printable gameboards, flashcards, and other literacy materials at www.dogonalogbooks.com.

Canine Enrichment for the Real World Allie Bender, Emily Strong, 2019-11-08 In the world of dogs, there is now more awareness than ever of the need to provide enrichment, especially in shelters. But what exactly is enrichment? The concept is pretty straightforward: learn what your dog's needs are, and then structure an environment and routine that allows them to engage in behaviors they find enriching. To truly enrich your dog's life, you should offer them opportunities to engage in natural or instinctual behaviors. Aside from the limitations we have to place on a dog in today's modern, busy world, the biggest constraint to enriching your dog's life is your imagination! What the experts say about Canine Enrichment: Don't let the word "enrichment" in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable. It focuses comprehensively on meeting your dog's needs and is written in a holistic, science-based, practical, straightforward, and easy-to-understand way. I love this book! Ken Ramirez, author of Animal Training: Successful Animal Management Through Positive Reinforcement Canine Enrichment is a deep dive into what dogs really need and how we can

provide it. It's a great book for dog lovers who want to go beyond the standard superficialities of "dogs need exercise." Just the chapter on agency is worth the price of the book! Patricia McConnell, Ph.D., CAAB Emeritus, author of *The Other End of the Leash* and *The Education of Will* The scope of this book is ambitious and the authors deliver, navigating the subject of enrichment with depth and relevance. Caregivers will gain critically important perspectives and practical information to improve the lives of their animals. Susan G. Friedman, Ph.D., Professor Emeritus, Utah State University, and founder of Behavior Works, LLC
