**Designing Web-Based Applications for 21st Century Writing Classrooms** George Pullman,Gu Baotong,2016-12-05  
Designing Web-Based Applications for 21st Century Writing Classrooms brings together, for the first time, a group of scholars and teachers who have been developing, on their own initiative, web-based solutions to technical and professional writing instructional problems. In industry the perennial question is whether to buy or build, but in academia, for various reasons, buy is rarely an option. Individual faculty members do not have the money to pay for software solutions, and often their interests are too local or small-scale to warrant institutional-level involvement. In addition, the design of commercial applications from vendors typically does not take into account the unique needs and considerations of teachers of writing and often reflects a design ideology quite different from theirs. This is why so many writing teachers have turned to open source solutions and, in the process of learning how to tweak them to make them more responsive to their specific needs, why so many of these teachers have developed programming and design skills. Beyond exigency, the motivation for becoming proficient at interface and database design comes from the observation that the nature of writing is changing dramatically. Text is no longer an object. It has become a place of interaction; consumers are becoming producers. And the work of technical and professional communication, indeed the work of writing teachers more generally, is becoming increasingly involved in the design and implementation of places of interaction. Words have become data; texts are becoming communities.

**The Home Edit** Clea Shearer,Joanna Teplin,2019-03-19 NEW YORK TIMES BESTSELLER • From the stars of the Netflix series Get Organized with The Home Edit (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. “A master class on how to arrange even your most unattractive belongings—and spaces—in an aesthetically pleasing and easy-to-navigate way.”—Glamour (10 Books to Help You Live Your Best Life) Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it’s not hard to do—in fact, it’s a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea’s signature approach to decluttering. The Home Edit walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don’t need another do-over in six months. When you’re done, you’ll not only know exactly where to find things, but you’ll also love the way it looks. A masterclass and look book in one, The Home Edit is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there’s nothing like a little ROYGBIV to soothe the soul).

Above all, it's like having your best friends at your side to help you turn the chaos into calm. Includes a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397).
