Art and Love in Renaissance Italy Metropolitan Museum of Art (New York, N.Y.), Kimbell Art Museum, 2008 Many famous artworks of the Italian Renaissance were made to celebrate love, marriage, and family. They were the pinnacles of a tradition, dating from early in the era, of commemorating betrothals, marriages, and the birth of children by commissioning extraordinary objects - maiolica, glassware, jewels, textiles, paintings - that were often also exchanged as gifts. This volume is the first comprehensive survey of artworks arising from Renaissance rituals of love and marriage and makes a major contribution to our understanding of Renaissance art in its broader cultural context. The impressive range of works gathered in these pages extends from birth trays painted in the early fifteenth century to large canvases on mythological themes that Titian painted in the mid-1500s. Each work of art would have been recognized by contemporary viewers for its prescribed function within the private, domestic domain.--BOOK JACKET.

Bernini and the Birth of Baroque Portrait Sculpture Andrea Bacchi, Catherine Hess, Jennifer Montagu, 2008-01-01 Gian Lorenzo Bernini was the greatest sculptor of the Baroque period, and yet—surprisingly—there has never before been a major exhibition of his sculpture in North America. *Bernini and the Birth of Baroque Portrait Sculpture* showcases portrait sculptures from all phases of the artist's long career, from the very early Antonio Coppola of 1612 to Clement X of about 1676, one of his last completed works. Bernini's portrait busts were masterpieces of technical virtuosity; at the same time, they revealed a new interest in psychological depth. Bernini's ability to capture the essential character of his subjects was unmatched and had a profound influence on other leading sculptors of his day, such as Alessandro Algardi, Giuliano Finelli, and Francesco Mochi. *Bernini and the Birth of Baroque Portrait Sculpture* is a groundbreaking study that features drawings and paintings by Bernini and his contemporaries. Together they demonstrate not only the range, skill, and acuity of these masters of Baroque portraiture but also the interrelationship of the arts in seventeenth-century Rome.

Michelangelo Carmen C. Bambach, Claire Barry, Francesco Caglioti, Caroline Elam, Marcella Marongiu, Mauro Mussolin, 2017-11-05 Consummate painter, draftsman, sculptor, and architect, Michelangelo Buonarroti (1475–1564) was celebrated for his *disegno*, a term that embraces both drawing and conceptual design, which was considered in the Renaissance to be the foundation of all artistic disciplines. To his contemporary Giorgio Vasari, Michelangelo was “the divine draftsman and designer” whose work embodied the unity of the arts. Beautifully illustrated with more than 350 drawings, paintings, sculptures, and architectural views, this book establishes the centrality of *disegno* to Michelangelo’s work. Carmen C. Bambach presents a comprehensive and engaging narrative of the artist’s long career in Florence and Rome, beginning with his training under the painter Domenico Ghirlandaio and the sculptor Bertoldo and ending with his seventeen-year appointment as chief architect of Saint Peter’s Basilica at the Vatican. The chapters relate Michelangelo’s compositional drawings, sketches, life studies, and full-scale cartoons to his major commissions—such as the ceiling frescoes and the Last Judgment in the Sistine Chapel, the church of San Lorenzo and its New Sacristy (Medici Chapel) in Florence, and Saint Peter’s—offering fresh insights into his creative process. Also explored are Michelangelo’s influential role as a master and teacher of *disegno*, his literary and spiritual interests, and the virtuoso drawings he made as gifts for intimate friends, such as the nobleman Tommaso de’ Cavalieri and Vittoria Colonna, the marchesa of Pescara. Complementing Bambach’s text are thematic essays by leading authorities on the art of Michelangelo. Meticulously researched, compellingly argued, and richly illustrated, this book is a major contribution to our understanding of this timeless artist.

Look Out, Fred! Evangeline Riddiford Graham, Louise Rutledge, 2017 Look out, Fred! was a sound art exhibition, set in a campfire circle of makeshift wooden seats, with 5 sets of MP 3 players & headphones attached to pieces of timber. The audio consisted of 5 spoken perpetual canons alternating between readings of the same script by 2 voice actors and then recorded and layered on top of one another post production entitled Perpetual cowboy #1 through to Perpetual cowboy # 5.

Materializing Six Years Catherine Morris, Brooklyn Museum, 2012-08-24 Lucy R. Lippard’s famous book, itself resembling an exhibition, is now brought full circle in an exhibition (and catalog) resembling her book. “Conceptual art, for me, means work in which the idea is paramount and the material form is secondary, lightweight, ephemeral, cheap, unpretentious and/or 'dematerialized.'” —Lucy R. Lippard, *Six Years* In 1973 the critic and curator Lucy R. Lippard published *Six Years*, a book with possibly the longest subtitle in the bibliography of art: *The dematerialization of the art object from 1966 to 1972: a cross-reference book of information on some esthetic boundaries: consisting of a bibliography into which are inserted a fragmented text, art works, documents, interviews, and symposia, arranged chronologically and focused on so-called conceptual or information or idea art with mentions of such vaguely designated areas as minimal, anti-form, systems, earth,*

or process art, occurring now in the Americas, Europe, England, Australia, and Asia (with occasional political overtones) edited and annotated by Lucy R. Lippard. *Six Years*, sometimes referred to as a conceptual art object itself, not only described and embodied the new type of art-making that Lippard was intent on identifying and cataloging, it also exemplified a new way of criticizing and curating art. Nearly forty years later, the Brooklyn Museum takes Lippard's celebrated experiment in curated concatenation as a template, turning a book that resembled an exhibition into an exhibition materializing the ideas in her book. The artworks and essays featured in this publication recall the thrill that was tangible in Lippard's original documentation, reminding us that during the late sixties and early seventies all possible social and material parameters of art (making) were played with, worked over, inverted, reduced, expanded, and rejected. By tracing Lippard's own activities in those years, the book also documents the early blurring of boundaries among critical, curatorial, and artistic practices. With more than 200 images of work by dozens of artists (printed in color throughout), this book brings Lippard's curatorial experiment full circle.

Ferguson,Reesa Greenberg,Sandy Nairne,2005-08-11 An anthology of writings on exhibition practice from artists, critics, curators and art historians plus artist-curators. performances, in settings outside of traditional museum or gallery locales.

Aesthetic Theory, Abstract Art, and Lawrence Carroll David Carrier, 2018-09-06 Boldly developing the central traditions of American modernist abstraction, Lawrence Carroll's paintings engage with a fundamental issue of aesthetic theory, the nature of the medium of painting, in highly original, frequently extraordinarily successful ways. *Aesthetic Theory, Abstract Art, and Lawrence Carroll* explains how he understands the medium of painting; shows what his art says about the identity of painting as an art; discusses the place of his paintings in the development of abstraction; and, finally, offers an interpretation of his art. The first monograph devoted to him, this philosophical commentary employs the resources of analytic aesthetics. Art historians trace the development of art, explaining how what came earlier yields to what comes later. Taking for granted that the artifacts they describe are artworks, art historians place them within the history of art. Philosophical art writers define art, explain why it has a history and identify its meaning. Pursuing that goal, *Aesthetic Theory, Abstract Art, and Lawrence Carroll* roams freely across art history, focused at some points on the story of old master painting and sometimes on the history of modernism, but looking also to contemporary art, in order to provide the fullest possible philosophical perspective on Carroll's work.

Cold War American Exhibitions of Italian Art and Design Antje Gamble, 2023-07-13 Enriching the existing scholarship on this important exhibition, *Italy at Work: Her Renaissance in Design Today (1950-53)*, this book shows the dynamic role art, specifically sculpture, played in constructing both Italian and American culture after World War II (WWII). Moving beyond previous studies, this book looks to the archival sources and beyond the history of design for a greater understanding of the stakes of the show. First, the book considers art's role in this exhibition's import—prominent mid-century sculptors like Giacomo Manzù, Fausto Melotti, and Lucio Fontana were included. Second, it foregrounds the particular role sculpture was able to play in transcending the boundaries of fine art and craft to showcase innovative formalist aesthetics of modernism without falling in the critiques of modernism playing out on the international stage in terms of state funding for art. Third, the book engages with the larger socio-political use of art as a cultural soft power both within the American and Italian contexts. Fourth, it highlights the important role race and culture of Italians and Italian-Americans played in the installation and success of this exhibition. Lastly, therefore, this study connects an investigation of modernist sculpture, modern design, post-war exhibitions, sociology, and transatlantic politics and economics to highlight the important role sculpture played in post-war Italian and American cultural production. The book will be of interest to scholars working in art history, design history, museum studies, Italian studies, and American studies.
