A History of the Episcopal Church Schism in South Carolina Ronald James Caldwell, 2017-08-09 In 2012, the Episcopal Diocese of South Carolina declared its independence from the Episcopal Church. It was the fifth of the 111 dioceses of the Church to do so since 2007. A History of the Episcopal Church Schism in South Carolina is the sweeping story of how one diocese moved from the mainstream of the Episcopal Church to separate from the church. It examines the underlying issues, the immediate causes, and the initiating events as well as the nature and results of the schism. The book traces the escalating conflict between the diocese and the church that led up to the schism. It also examines the legal war between the two post-schism dioceses, the majority in the independent Diocese of South Carolina and the minority in the Episcopal Church in South Carolina. This is the first scholarly history of a diocesan schism from the Episcopal Church. It is extensively researched from original and secondary sources and documented in over 2,000 notes citing nearly 900 works. This story

stands as a cautionary tale of what happens in a major Christian denomination when majority and minority factions increasingly differentiate themselves and what impact that can have for both parties.

**Recalibrating Juvenile Detention** David W. Roush, 2019-02-22 *Recalibrating Juvenile Detention* chronicles the lessons learned from the 2007 to 2015 landmark US District Court-ordered reform of the Cook County Juvenile Temporary Detention Center (JTDC) in Illinois, following years of litigation by the ACLU about egregious and unconstitutional conditions of confinement. In addition to explaining the implications of the Court's actions, the book includes an analysis of a major evaluation research report by the University of Chicago Crime Lab and explains for scholars, practitioners, administrators, policymakers, and advocates how and why this particular reform of conditions achieved successful outcomes when others failed. Maintaining that the Chicago Crime Lab findings are the gold standard evidence-based research (EBR) in pretrial detention, Roush holds that the observed firsts for juvenile detention may perhaps have the power to transform all custody practices. He shows that the findings validate a new model of institutional reform based on cognitive-behavioral programming (CBT), reveal statistically significant reductions in in-custody violence and recidivism, and demonstrate that at least one variation of short-term secure custody can influence positively certain life outcomes for Chicago's highest-risk and most disadvantaged youth. With the *Quarterly Journal of Economics* imprimatur and endorsement by the President's Council of Economic Advisors, the book is a reverse engineering of these once-in-a-lifetime events (recidivism reduction and EBR in pretrial detention) that explains the important and transformative implications for the future of juvenile justice practice. The book is essential reading for graduate students in juvenile justice, criminology, and corrections, as well as practitioners, judges, and policymakers.

**Healthier Schools**, 2002 Existing indoor air quality (IAQ) policies for schools reflect the variety of institutional, political, social, and economic contexts that exist within individual states. The purpose of this report is to provide a better understanding of the types of policy strategies used by states in addressing general indoor air quality problems. The policies discussed illustrate approaches that states can consider when developing legislation, regulations, guidance documents, and

programs to create healthier indoor environments in schools. The report provides detailed information on existing policies, with an emphasis on policy strategies aimed at preventing indoor air quality problems. Thus, the report focuses on policies that promote better maintenance and management of existing school facilities, as well as better design and construction practices in new and renovated schools. Additionally, since an IAQ policy has little value unless implemented, the report highlights significant implementation activities and notes potential strengths and weaknesses of individual policies in this regard.
