Of course, they don't make those mistakes intentionally - very few people would deliberately harm their animals. They are made out of unawareness, because even if you make an effort and inform yourself, you still come across a lot of misinformation, which is spread in pet shops, on the internet and even in some guidebooks! There are simply too many dubious sources. So how do you feed a rabbit in a species appropriate way? We want to get to the bottom of this question... The author is an expert in animal care and animal nutrition. She has been taking care of rodents for over 25 years, primarily of guinea pigs, rabbits and hamsters. She is happy to pass on her knowledge to other rabbit keepers (and to those who want to become one)! Have fun with the book - and to lots of new and helpful insights!

Rabbit, Goat, Sheep, Poultry, Fish and Pig Farming with Feed Technology NIIR Board of Consultants & Engineers, 2004-01-01 Livestock and poultry in Indian tropical and subtropics play a critical role in agricultural economy by providing milk, wool, meat, eggs and draft power and provide flexible reserves during period of economic stress and buffer against crop failure. Rabbits are raised up off the ground and are one of the cleanest animals produced as meat and hence do not even need to be wormed. Rabbits are among the most productive of domestic livestock, making them efficient sources of food for an ever increasing population with diminishing resources. Up to 98.7% of the rabbits can be used for meat, fur, in laboratories, as fertilizers, in toys and novelties. The large demand for animal wool seems to be assured. Sheep rearing is the major source of livelihood to small and marginal farmers and landless laborers in hilly areas, arid and semi-arid region of India. Goat is a multi functional animal and plays a significant role in the economy and nutrition of landless, small and marginal farmers in the country. It creates employment to the rural poor besides effectively utilizing unpaid family labor. There is ample scope for establishing cottage industries based on goat meat and milk products and value addition to skin and fiber. Fish is a good source of animal proteins; Man has realized its importance from the very inception of the evolution of the human race. It has been the sole diet for many island nations before the evolution of farming techniques. Poultry is one of the fastest growing segments of the agricultural sector in India today. The production of agricultural crops has been rising at a rate of 1.5 to 2 % per annum that of eggs and broilers has been rising at a rate of 8 to 10 % per annum. From a backyard hobby it has culminated into an industry. Among the various livestock species, piggery is most potential source of meat production and more efficient feed converters after the broiler. Apart from providing meat, it is also a source of bristles and manure. Pig farming will provide employment opportunities to seasonally employed rural farmers and supplementary income to improve their living standards. The contribution of pork products in terms of value works out to 0.80% of total livestock products and 4.32% of the meat and meat products. This book basically deals with rabbit keeping, feeding systems, feed requirements and balanced rations, angora wool utilization in cottage industries, useful information for goat breeding measures of increasing potential of range land nutrients requirements of goats, conversion efficiency of indigenous breeds of goats, sources and functions of the nutrients in sheep, breeds of poultry, inheritance of plumage in turkeys, commercial

In Volume 2, I am joined by a gentleman with over 30 years of knowledge and experience in feeding rabbits naturally. Mr. Rick Worden, owner of Rise And Shine Rabbitry and RiseAndShineRabbitry.com will share with us his take on going Beyond The Pellet. Like myself, Rick has worked extensively at moving away from commercial feed and towards natural feed for our rabbits. We write this together, aimed at a more advanced audience of Rabbiteers looking to take control of what their rabbits eat, what their feed costs are and ultimately what they eat.
