The Church and New Media Brandon Vogt, 2011-07-29 Engaging the digital Revolution We're experiencing the biggest communication shift since the printing press. Millions have adopted Facebook, YouTube, blogs, and Twitter. What does this mean for the Church? Following Pope Benedict's call to evangelize the digital continent, *The Church and New Media* explores the power and risks of New Media while guiding Christians through this new environment. Foreword by Cardinal Sean O'Malley, O.F.M. Cap. Afterword by Archbishop Timothy M. Dolan Expert contributors include: Father Robert Barron Lisa Hendey Jennifer Fulwiler Father Dwight Longenecker Thomas Peters Mark Shea Matt Warner *The Church and New Media* is the best kind of reading: timely, vivid, and rich in valuable information. Cap., Archdiocese of Denver

Church Websites Chris Cree, 2020-03-01 Church leaders today are far too busy to waste precious time and money on ineffective websites and fruitless online activity. *Church Websites* is a book for those ministers which explains how things work in the online world in simple language. This book explains the why behind the various online activities so ministers can focus their resources on the right things for maximum effectiveness. It doesn't matter that you are doing things right if you aren't doing the right things. Once you know the right things to do, figuring out how to do those things right is much easier. *Church Websites* will help you know the right things. The tools change. But the principles stay consistent. Specific techniques come and go. But the general strategies that work are still the same as they have always been. When it comes to building an audience online, the same overarching principles are true now that were true when I wrote my first blog post back in 2005. This book lays out a proven strategy for your church or ministry to reach more people online through both your website and social media based on my first-hand experience working with a wide variety of clients for more than a decade. My first freelance client was a parachurch ministry. Over the years I've worked with everything from small churches up through large corporate clients and major universities. Not only do these concepts work for all of those types of organizations, but they are also exactly how we continue to reach more people with our own international ministry. *Church Websites* will help you be more successful by showing you the important stuff to focus on so you don't waste a lot of time.

Andrew Careaga Author, eMinistry: Connecting with the Net Generation A clear picture on the do's and don'ts of web ministry for churches. A must read for churches who want to effectively engage in web ministry. Walt Wilson Founder and Chairman, Global Media Outreach, a ministry of Campus Crusade for Christ Stephenson has truly unleashed the power of internet ministry for your church. If you're looking for a readable and educating book on web-empowered ministry, look no further. This book is it. I can't believe how much I learned from my first reading. I will be returning to the book over and over. Bill Easum President, Easum, Bandy & Associates Mark Stephenson is Director of CyberMinistry and Technology of Ginghamburg Church, Tipp City, Ohio. He started the Ginghamburg CyberMinistry back in 1996 as an unpaid servant. Over the years, as the ministry grew, Mark joined the Ginghamburg staff, first part time and then full time. Currently, Ginghamburg Church has one of the largest and most innovative church internet ministries in the world, and the ministry remains unpaid-servant based and "home grown" (no outside companies or consultants have been hired). The website has received national acclaim -- from write-ups in the Wall Street Journal to the Dallas Morning News to Christian Computing Magazine, and television stories by WBNS Channel 10 in Columbus, Ohio and on Fox News. Visionary leaders like Bill Easum and Len Sweet champion it as a must-see website. Mark, the "Church CyberGuy," is also a well-known speaker on CyberMinistry as he conducts presentations and workshops around North America for such organizations as Leadership Network, United Methodist Communications, North American Christian Convention, Brethren in Christ Church of North America, and Miami University of Ohio. Mark has provided consulting support to numerous churches from around the world to help them develop their web ministries. His passion for helping churches led him to start and lead the Web-Empowered Church, a ministry of The Foundation for Evangelism, to develop free web-ministry software for churches and ministries worldwide.

Helping Without Hurting in Church Benevolence Steve Corbett,Brian Fikkert,2015-09-22 When a low-income person asks your church for help, what do you do next? God is extraordinarily generous, and our churches should be, too. Because poverty is complex, however, helping low-income people often requires going beyond meeting their material needs to

holistically addressing the roots of their poverty. But on a practical level, how do you move forward in walking with someone who approaches your church for financial help? From the authors of *When Helping Hurts* comes *Helping Without Hurting in Church Benevolence*, a guidebook for church staff, deacons, or volunteers who work with low-income people. Short and to the point, this tool provides foundational principles for poverty alleviation and then addresses practical matters, like: How to structure and focus your benevolence work How to respond to immediate needs while pursuing long-term solutions How to mobilize your church to walk with low-income people With practical stories, forms, and tools for churches to use, *Helping Without Hurting in Church Benevolence* is an all-in-one guide for church leaders and laypeople who want to help the poor in ways that lead to lasting change.

Cyber Worship in Multifaith Perspectives Mohamed Taher, 2006 *Cyber Worship in Multifaith Perspectives*, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an 'everything you need to know' guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

Wise Church Scot McKnight, Daniel J. Hanlon, 2021-03-31 Wise Church is about rethinking church cultures so they become more of a wisdom culture. The topics vary as widely as church life itself: letter writing as pastoral care, the work life of congregants, evangelism, music, church economics, spiritual formation as the pursuit of wisdom, racial justice, marriage, learning how to teach like Jesus, gospeling like the apostles, and the wise use of social media. These studies are by pastors and scholars pondering wisdom, but more than that, they are pondering the life we all live in a wise way. We and our churches need wisdom, not simply because we live in an ever-changing world, but because the God we worship is himself wise. Wise church cultures reflect the wisdom of God back into the world, a world looking for wisdom. With contributions from: Jeff Bannman Jeremy Berg Brandon Evans Pete Goodman David Johnston Ernest F. Audio, Video, and Media in the Ministry Clarence Floyd Richmond, 2010-04-19 In a worship service, a great measure of responsibility rests on those who volunteer in the audio, video, and media ministries. When everything is going well, no one notices, but when the microphones don't work or the projected song lyrics aren't in sync, everyone does. A well-functioning audio, video, and media team can help the congregation enter into a deeper and more meaningful worship. Each area of AV ministry is included: sound, projection, lighting, audio, video, broadcast, and web. The book also provides tips and instructions on selecting equipment and the set-up, storage, operation, and maintenance of it. Other leadership topics such as trouble-shooting problems in rehearsal and during services as well as tips for working with ministry leaders, musicians, and fellow congregants are discussed. If you're a new volunteer to this ministry or just wanting a topical refresher, this handbook is the perfect guide for you.

Whether you're brand-new to the Bible or you grew up in the second pew, reading Scripture can feel confusing or boring at times. Living in Love and Faith The Church of England, 2020-11-09 Issues of gender and sexuality are intrinsic to people's experience: their sense of identity, their lives and the loving relationships that shape and sustain them. The life and mission of the Church of England – and of the worldwide Anglican Communion – are affected by the deep, and sometimes painful, disagreements about these matters, divisions brought into sharper focus because of society's changing perspectives and practices, especially in relation to LGTBI+ people. Living in Love and Faith sets out to inspire people to think more deeply both about what it means to be human, and to live in love and faith with one another. It tackles the tough questions and the divisions among Christians about what it means to be holy in a society in which understandings and practices of gender, sexuality and marriage continue to change. Commissioned and led by the Bishops of the Church of England, the Living in Love and Faith project has involved many people across the Church and beyond, bringing together a great diversity and depth of expertise, conviction and experience to explore these matters by studying what the Bible, theology, history and the social and biological sciences have to say. After a Foreword from the Archbishops of Canterbury and York, the book opens with an invitation from the Bishops of the Church of England to embark on a learning journey in five parts: Part One sets current questions about human identity, sexuality, relationships and marriage in the context of God's gift of life. Part Two takes a careful and dispassionate look at what is happening in the world with regard to identity, sexuality, relationships and marriage. Part Three explores current Christian thinking and discussions about human identity, sexuality, and marriage. In the light of the good news of Jesus Christ, how do Christians understand and respond to the trends observed in Part Two? Part Four considers what it means for us as individuals and as a church to be Christ-like when it comes to matters of identity,

sexuality, relationships and marriage. Part Five invites the reader into a conversation between some of the people who have been involved in writing this book who, having engaged with and written Parts One to Four, nevertheless come to different conclusions. Amid the biblical, theological, historical and scientific exploration, each part includes Encounters with real, contemporary disciples of Christ whose stories raise questions which ask us to discern where God is active in human lives. The book ends with an appeal from the Bishops to join them in a period of discernment and decision-making following the publication of *Living in Love and Faith*. The *Living in Love and Faith* book is accompanied by a range of free digital resources including films, podcasts and an online library, together with *Living in Love and Faith: The Course*, a 5-session course which is designed to help local groups engage with the resources, also published by Church House Publishing.

Representing God Méadhbh McIvor, 2020-10-06 Over the past two decades, increasing numbers of Britons possessing Christian views and beliefs have taken to the courts to enforce what are framed as religious rights under both European and domestic legislation. These cases typically involve Christians who have been penalized for seeking faith-based exemptions from their conditions of employment - e.g. Christian registrars who claim a conscientious objection to registering the marriages or civil partnerships of same-sex couples, or employees who ask for exceptions to uniform policies that forbid the visible wearing of religious jewellery (crosses and crucifixes). Observers of American politics and culture will be familiar with the view that devout Christians are victims of secular intolerance. American right-wing evangelical groups have launched well-funded legal challenges to federal and state laws with a view to establishing opt-out or conscientious objection provisions of the sort noted above. (Some of these cases will be heard by the U.S. Supreme Court soon.) The American connection to the English controversies is direct, as the legal activism of English lobby organizations such as the Christian Legal Centre (CLC) is inspired by American conservative legal strategies - and CLC also receives donations from American sources. (Although it should be noted that most of CLC's donor base is English.) This is an especially delicate matter in England - a country which maintains an established Church but which remains wary of those who do God in public. This book is an ethnographic investigation of this contemporary issue and is based on the author's two years of ethnographic research split between a conservative Christian lobby group (CLC) and a conservative evangelical church in London. The author reveals that evangelicals on the ground are deeply ambivalent about the impact of this legal theology. Although some wholeheartedly support the legal battles waged by organizations like CLC and see them as essential for allowing them to discharge their missionary obligations, others are concerned about the possible negative consequences of using secular law as a vehicle for their faith and the potential damage such legal strategies might do to their efforts to spread the Gospel--
