**Cajun Country** Barry Jean Ancelet,Jay Edwards,Glen Pitre,2009-09-28 This insightful book is by far the broadest examination of traditional Cajun culture ever assembled. It goes beyond the stereotypes and surface treatment given to Cajuns by the popular media and examines the great variety of cultural elements alive in Cajun culture today—cooking, music, storytelling, architecture, arts and crafts, and festivals, as well as traditional occupations such as fishing, hunting, and trapping. It not only gives fascinating descriptions of elements in Cajun life that have been woven into the fabric of American history and folklore; it also explains how they came to be. Cajun Country reveals the historical background of the Cajun people, who migrated to Louisiana as exiles from their Canadian homeland, and it shows their folklife as a living and ongoing legacy that enriches America.

Spell of Fate Mayer Alan Brenner, 2011-11-09 The author of *Spell of Catastrophe* and *Spell of Intrigue* delivers “a winner . . . An off-the-wall kind of fantasy” in the third *Dance of Gods* adventure (*Interzone*). Trouble is converging on the imperial city of Peridol, and whatever dance the gods are planning, Maximillian the Vaguely Disreputable wants to stay out of it. No such luck, though—it’s up to Max and his friends the Great Karlini and the Creeping Sword to unseat the despotic gods, who treat the mortal realm like a giant chess board. But with the gods fighting amongst themselves, no one is going to win this battle anytime soon—until a long-forgotten player re-enters the dance . . . “I was utterly hooked . . . The nearest I can get to the general tenor is *The Man from U.N.C.L.E.* with magic rings instead of talking pens.” —*Interzone* “Like riding on a racing carousel.” —Kliatt

*The Social and Cultural Construction of Risk* B.B. Johnson, V.T. Covello, 2012-12-06 The Social and Cultural Construction of Risk: Issues, Methods, and Case Studies Vincent T. Covello and Branden B. Johnson Risks to health, safety, and the environment abound in the world and people cope as best they can. But before action can be taken to control, reduce, or eliminate these risks, decisions must be made about which risks are important and which risks can safely be ignored. The challenge for decision makers is that consensus on these matters is often lacking. Risks believed by some individuals and groups to be tolerable or accept able - such as the risks of nuclear power or industrial pollutants - are intolerable and unacceptable to others. This book addresses this issue by exploring how particular technological risks come to be selected for societal attention and action. Each section of the volume examines, from a different perspective, how individuals, groups, communities, and societies decide what is risky, how risky it is, and what should be done. The writing of this book was inspired by another book: *Risk and Culture: An Essay on the Selection of Technological and Environmental Dangers*. Published in 1982 and written by two distinguished scholars - Mary Douglas, a British social anthropologist, and Aaron Wildavsky, an American political scientist - the book received wide critical attention and offered several provocative ideas on the nature of risk selection, perception, and acceptance.

**Pop Fleyes** Ed Jaworowski,Bob Popovics,2000-12-01 The most innovative fly tier I have ever known. --Lefty Kreh on Bob Popovics Bob Popovics has brought more creative ideas to the table in the last two decades than any other tier out there. --Dan Blanton This is the first and only book available on the tier whose techniques with epoxy and silicone revolutionized saltwater fly tying. *Food and Wine Pairing* Robert J. Harrington, 2007-03-05 The only book that presents food and wine pairing from a culinary and sensory perspective.
