Transforming Children's Spaces Alison Clark, 2010-02-25 How can young children play an active role in developing the design of learning environments? What methods can be used to bring together children's and practitioners' views about their environment? What insights can young children offer into good designs for these children's spaces? With the expansion of early childhood education and the move to 'extended schools', more young children will spend more time than ever before in institutions. Based on two actual building projects, this book is the first of its kind to demonstrate the possibilities of including young children's perspectives in the design and review of children's spaces. Situated at the heart of the debate about the relationship between the built environment and its impact on children's learning and wellbeing, *Transforming Children's Spaces* provides insights into how young children see their environment discusses children's aspirations for future spaces develops the 'Mosaic approach', pioneered by the author, as a method for listening to young children and adults Emphasising the importance of visual and verbal methods of communication, this fascinating book demonstrates how practitioners and young children can articulate their perspectives, and shows how participatory methods can support new relationships between children, practitioners and architects. This book is essential reading for those who work in children's spaces and for those who design them as well as being of general interest to those studying education and childhood studies.

Go Diaper Free Andrea Olson, 2021-02-17 Stop changing diapers? start potting your baby. Over half the world's children are potty trained by one year old, yet the average potty training age in the United States is currently three years old. This leaves parents wondering: What did people do before diapers? and How do I help my own baby out of diapers sooner? Elimination Communication, also known as EC, is the natural alternative to full-time diapers and conventional toilet training. Although human babies have been pottied from birth for all human history, we've modernized the technique to work in today's busy world. Go Diaper Free shows parents of 0-18 month babies, step-by-step, how to do EC with confidence, whether full time or part time, with diapers or without. Diaper-free doesn't mean a naked baby making a mess everywhere - it actually means free from dependence upon diapers. With this book, new parents can avoid years of messy diapers, potty training struggles, diaper rash, and unexplained fussiness. Also helpful for those considering EC, in the middle of a potty pause, or confused about how to begin. This 6th edition includes a new section on The Dream Pee, a full text and graphic revision, more photos of EC in action, and a complete list of further resources. MULTIMEDIA EDITION: includes the book and access to private video library, helpful downloads, additional troubleshooting, and our private online support group run by our Certified Coaches. For less than the cost of a case of diapers, you can learn EC hands-on, the way it's meant to be learned.

Twelve Hours' Sleep by Twelve Weeks Old Suzy Giordano, Lisa Abidin, 2006-01-19 There is no bigger issue for healthy infants than sleeping through the night. In this simple, straightforward book, Suzy Giordano presents her amazingly effective Limited- Crying Solution that will get any baby to sleep for twelve hours at night—and three hours in the day—by the age of twelve weeks old. Giordano is the mother of five children and one of the most sought-after baby sleep specialists in the country. The Washington Post calls her a baby sleep guru and an underground legend in the Washington area for her ability to teach newborns how to achieve that parenting nirvana: sleeping through the night. Her sleep plan has been tested with singletons, twins, triplets, babies with special needs, and colicky babies—and it has never failed. Whether you are pregnant, first-time parents, or parents who seek a different path with your second or third child, anyone can benefit from the Baby Coach's popular system of regular feeding times, twelve hours of sleep at night and three hours of sleep during the day, and the peace of mind that comes with taking the parent and child out of a sleep-deprived world.

Child and Adult Care Food Program Institute of Medicine, Food and Nutrition Board, Committee to Review Child and Adult Care Food Program Meal Requirements, 2011-06-06 The Child and Adult Care Food Program (CACFP) is a federally-funded program designed to provide healthy meals and snacks to children and adults while receiving day care at participating family day care homes, traditional child care centers, afterschool facilities, adult care facilities, and emergency shelters. CACFP has the broadest scope of any of the U.S. Department of Agriculture (USDA) food program, serving more than 3 million children and 114,000 adults across the nation. To receive reimbursement for the foods served, participating programs must abide by requirements set by the USDA. Child and Adult Care Food Program assesses the nutritional needs of the CACFP population based on Dietary Guidelines for Americans and the Dietary Reference Intakes (DRIs) and makes recommendations for revisions to the CACFP meal requirements. The book outlines meal requirements that include food specifications that could be used for specific meals and across a full day, covering all age groups from infants to older adults and meal patterns designed for use in a variety of settings, including in-home care and in large centers. By implementing these meal requirements, consumption of fruits, vegetables, and whole-grain rich foods will increase while consumption of solid fats, added sugars, and sodium will decrease. Not only will this address the high prevalence of childhood obesity, it will also help to achieve consistency with the standards and regulations of other USDA nutrition assistance programs, particularly the Supplemental Nutrition Program for Women, Infants, and Children (WIC), and the National School Lunch and School Breakfast programs. Child and Adult Care Food Program makes practical recommendations that would bring CACFP meals and snacks into alignment with current dietary guidance. The book will serve as a vital resource for federal and state public health officials, care providers working in child and adult day care facilities, WIC agencies, officials working with the National School Lunch and School Breakfast programs, and other organizations serving at-risk populations.
