Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Fair Play Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is *Fair Play*: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, *Fair Play* helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try *Fair Play*? Let's deal you in.

Fourth and Long John U. Bacon,2013-09-03 From New York Times bestselling author and Michigan football expert John Back, an analysis of the state of college football: Why we love the game, what is at risk, and the fight to save it. In search of the sport's old ideals amid the roaring flood of hypocrisy and greed, bestselling author John U. Bacon embedded himself in four college football programs—Penn State, Ohio State, Michigan, and Northwestern—and captured the oldest, biggest, most storied league, the Big Ten, at its tipping point. He sat in as coaches dissected game film, he ate dinner at training tables, and he listened in locker rooms. He talked with tailgating fans and college presidents, and he spent months in the company of the gifted young athletes who play the game. *Fourth and Long* reveals intimate scenes behind closed doors, from a team's angry face-off with their athletic director to a defensive lineman acing his master's exams in theoretical math. It captures the private moment when coach Urban Meyer earned the devotion of Ohio State's Buckeyes on their way to a perfect season. It shows Michigan's athletic department endangering the very traditions that distinguish the college game from all others. And it re-creates the euphoria of the Northwestern Wildcats winning their first bowl game in decades. Most unforgettably, *Fourth and Long* finds what the national media missed in the ugly aftermath of Penn State's tragic scandal: the unheralded story of players who joined forces with Coach Bill O'Brien to save the university's treasured program—and with it, a piece of the game's soul. This is the work of a writer in love with an old game—a game he sees at the precipice. Bacon's deep knowledge of sports history and his sensitivity to the tribal subcultures of the college game power this elegy to a beloved and endangered American institution.

The Last Civilization Charles Brough, 2010-11 The terrorism continues with no end in sight, over-population grows ever more serious, our natural resources are being depleted and corruption runs rampant. Will these problems ever be solved? The continuing events point to an impending breakdown of our civilization. The threat of a new world-wide plague, mass starvation, and nuclear war increases each year. No solution is in sight without an understanding of social evolutionary natural selection and how it has shaped world affairs throughout both history and prehistory. Only by learning how ideology shapes society is it possible to know what must happen in order for people to be active in the transition from the old into a new society and civilization. The author covers topics such as our primate small-group social behavior, the development of the matriarchal agricultural ideological system, the ideology involved in barbarism, and the rise of the patriarchal-monogamous ideologically based societies and their civilizations. Learn why the green revolution is falling behind, the biologically-related build-up of stress, and how lagging energy supplies will affect the world. Two of the last chapters lay out the structural make-up of every successful mainstream world-view ideological system. They use that to build a facsimile of what the core of such a new and advanced system would have to be like to succeed--a perpetual lack of which would ensure that this is indeed The Last Civilization because no other can follow without it.
