*How to Use Decodable Books to Teach Reading* Pamela Brookes,2019-09-29 Sixty-five percent of U.S. fourth graders are not proficient readers because their teachers have not been taught how to teach reading using evidence-based methods. Up to 20% of children have dyslexia. Few receive the individualized teaching they need from their schools. To help parents and teachers who want to teach their children using an evidence-based, effective method, Pamela Brookes, the mother of a child with dyslexia, discusses their daily routine as she teaches her daughter to read using the decodable DOG ON A LOG Books series. As the author of DOG ON A LOG Books, Pamela also shares how to choose where in the series to start. She shares how she teaches each of the phonics rules used in the book series along with the reasons for teaching the syllable types and handwriting. Although this booklet is meant to guide parents and teachers using DOG ON A LOG Books, the information can be adapted and applied to any systematic series of decodable books. *How to Use Decodable Books to Teach Reading* is edited by Dr. Nancy Mather, a professor in learning disabilities, reading, and writing to make sure it follows the scientific research on teaching reading. This edition includes information on Steps 1 to 10 of the DOG ON A LOG phonics rules. Additional steps will be added as the future decodable chapter books are created. All DOG ON A LOG Books follow a structured literacy/Orton-Gillingham based phonics sequence. You can download printable gameboards, flashcards, and other literacy materials at [www.dogonalogbooks.com](http://www.dogonalogbooks.com).

**Power Tools for Literacy** Verena Rau,2020-10 The 300 systematic, engaging lessons in the second edition of Power Tools for Literacy are aligned with the Orton Gillingham method and the Common Core Reading Standards. Become an expert in teaching phonics in the context of syllable patterns and showing students how to analyze or chunk words into phonemes, syllables, base words, prefixes, suffixes, Latin roots, and Greek elements. Mastering and blending these phonograms and morphemes enables students to decode and spell one-syllable and polysyllabic words with ease and accuracy. A report by The National Institute of Child Health and Human Development states, For those children who are at risk for reading failure, highly direct and systematic instruction to develop phonemic awareness and phonics skills is required. In keeping with this principle, Power Tools for Literacy follows an explicit progression of phonics skills proven successful with struggling readers, students with learning differences or dyslexia, and English learners. Designed for grades 3-12, this program lends itself to individual or group instruction. The look and feel of the lessons is appropriate for any age group; material that appears tailored to young children has been avoided. Power Tools for Literacy uses a variety of interesting activities to cover these key topics and more: Short and long vowels with consonant blends and digraphs R-controlled vowels, diphthongs, and vowel digraphs Syllable patterns Rules for dividing polysyllabic words Compound words Reading, spelling, and defining 50 suffixes Spelling rules for adding suffixes to base words Vocabulary enrichment by reading, spelling, and defining 50 prefixes Accented and unaccented syllables Free and bound morphemes Latin roots and Greek combining forms Weekly spelling lists that incorporate high frequency sight words The unique aspect of Power Tools for Literacy is the use of syllable codes. Each type of syllable has a code abbreviation. Utilizing codes in conjunction with a multisensory technique reinforces the structure of previously covered concepts and builds in review to achieve automaticity. This program is only one component of an effective reading program. It should be coupled with a literature-based curriculum, accompanied by intensive vocabulary development.

Each book in the series gradually builds on children's understanding of sounds and letters and provides scaffolded support for children to learn about every sound in the English language. Offering tried and tested material which can be photocopied for each use, this is an invaluable resource to simplify phonics teaching for teachers and teaching assistants and provide fun new ways of learning phonics for all children. This book is accompanied by a companion resource, 'Phonics for Pupils with Complex SEND', to be used alongside the Phonics for Pupils with Special Educational Needs programme.
