Investing in Real Estate Michael J. Gilroy, 2013-06-21 The purpose of this book is to shed some light on the process of purchasing income producing property and to introduce you to a technique of making money derived from public information available in the Probate Court System, that not one in one hundred people are aware. In other words, I will explain in detail two different ways of making money using real estate as the vehicle. The first and most popular way being of investing is to purchase real estate to hold for the long term. The other method consists of purchasing, updating and selling property within a 6 month time frame and generating a 30% return on investment. This method can also be expanded into an options situation whereby the investor puts a property under contract to be sold to him by giving the seller a \$1,000.00 deposit while signing a P&S agreement. After the agreement is signed by both parties and the investor has legal footing, the investor locates a contractor and proceeds to sell the contract. The time for performance in most agreements is ninety days. Within that time frame the investor collects the difference between what his agreement says that he is paying and what his purchaser is paying him. This transaction is accomplished by using an assignment. If the investor sells his agreement for \$5,000.00 in ninety days he will have effectively gotten an annualized profit ratio of 20 to 1. The other section of the book explains how to track and capitalize on public information available in the Probate Court System to generate a fantastic

income.

[The Complete Guide to Investing in Real Estate Tax Liens & Deeds](#) Jamaine Burrell,2006 Purchasing tax lien instruments from city, county, and municipal governments can provide you with very high and secure rates of return, in some cases as high as 12%, 18%, 24%, or even 1,000% or more per year. If performed correctly, investments in tax lien instruments will far outpace stock market performance, even traditional real estate investments. The key is to know how to perform this process correctly. Tax lien certificates and deeds are not purchased through a broker; you purchase these property tax liens directly from the state or county government (depending on the state). This type of investment was created by state law, and state law protects you as the investor. Investing in tax liens and deeds can be very rewarding. Tax liens can be tax deferred or even tax-free. You can purchase them in your self-directed IRA. Interest rates vary but average between 4% and 18%. The interest rates are fixed by local governments, essentially a government-guaranteed loan. Additionally, the investment is secured by real property (real estate). This sounds great, but what is the catch? There really is none, except you must know what you are doing! This groundbreaking and exhaustively researched new book will provide everything you need to know to get you started on generating high-investment returns with low risk, from start to finish. You will learn what property tax liens and tax lien certificates are; how to invest in tax lien certificates; how to buy tax lien certificates; insider secrets to help you double or even triple your investment, how to start with under \$1,000; the risks, traps, and pitfalls to avoid; and a

detailed directory of states that sell tax lien certificates with contact information. In addition, we spent thousands of hours interviewing, e-mailing, and communicating with hundreds of today's most successful investors. This book is a compilation of their secrets and proven successful ideas. If you are interested in learning hundreds of hints, tricks, and secrets on how to purchase tax liens and deeds and earn enormous profits, then this book is for you.
