Making College Courses Flexible Kevin Kelly, 2024-04-01 Addressing students' increasing demand for flexibility in how they complete college courses, this book prepares practitioners to create equivalent learning experiences for students in the classroom and those learning from home, synchronously or asynchronously. Combining evidence-based strategies and implementation stories shared by veteran practitioners, Kevin Kelly has created a guide for educators who want to offer a more flexible and equitable path to learner success. Chapters address emerging challenges related to teaching, learning, and managing technology, and give recommendations for supporting students in courses that combine two or more participation modalities. Written for busy professionals, readers will be able to quickly identify where to focus their attention and how to put these ideas into practice. Filled with impactful teaching techniques, lessons learned, and immediately applicable exercises, this resource is a powerful tool for creating course experiences that support every student.

Fearless and Free: How One Man Changed my Life | Self-help story on life, love and making a fresh start Udayakumar DS, 2023-02-10 When a young engineer moves into a new home with his wife and children, he is intrigued by the respect and

admiration the neighbours show for the retired doctor living next door. But despite the overwhelming love, the old man seems to be neglected and all alone. Why does he live alone? Why does he take the dramatic evening walk to the park? Why does he sit only at one particular bench? After a chance meeting with the Old Man, he gleefully accepts an invitation to join him in his famous study. There, he decodes the man's puzzling past. Amazed by the mindboggling experiences from the old man's memories and heart-wrenching tales, his metamorphosis is complete - from a neighbour to a companion, a student, and then a son. FEARLESS AND FREE is the tale of how a lonely old man's life opens up a box of motivation for his young admirer, encouraging him and the readers to live every moment to the fullest.

Runner's World Run Less Run Faster Bill Pierce, Scott Murr, 2021-01-19 Finally, runners at all levels can improve their race times while training less, with the revolutionary Furman Institute of Running and Scientific Training (FIRST) program. Hailed by the Wall Street Journal and featured twice in six months in cover stories in Runner's World magazine, FIRST's unique training philosophy makes running easier and more accessible, limits overtraining and burnout, and substantially cuts the risk of injury, while producing faster race times. The key feature is the 3 plus 2 program, which each week consists of: -3 quality runs, including track repeats, the tempo run, and the long run, which are designed to work together to improve endurance, lactate-threshold running pace, and leg speed -2 aerobic cross-training workouts, such as swimming, rowing, or pedaling a stationary bike, which are designed to improve endurance while helping to avoid burnout With detailed training plans for 5K, 10K, half marathon, and marathon, plus tips for goal-setting, rest, recovery, injury rehab and prevention, strength training, and nutrition, this program will change the way runners think about and train for competitive races. Amby Burfoot, Runner's World executive editor and Boston Marathon winner, calls the FIRST training program the most detailed, well-organized, and scientific training program for runners that I have ever seen.

Future Generation Grids Vladimir Getov,Domenico Laforenza,Alexander Reinefeld,2006-10-12 The CoreGRID Network of Excellence (NoE) project began in September 2004. Two months later, in November 2004, the first CoreGRID Integration Workshop was held within the framework of the prestigious international Dagstuhl seminars. CoreGRID aims at strengthening and advancing long-term research, knowledge transfer and integration in the area of Grid and Peer-to-Peer technologies. CoreGRID is a Network of Excellence - a new type of project within the European 6th Framework Programme,

to ensure progressive evolution and durable integration of the European Grid research community. To achieve this objective, CoreGRID brings together a critical mass of well-established researchers and doctoral students from forty-two institutions that have constructed an ambitious joint programme of activities. Although excellence is a goal to which CoreGRID is committed, durable integration is our main concern. It means that CoreGRID has to carry out activities to improve the effectiveness of European research in Grid by coordinating and adapting the participants' activities in Grid research, to share resources such as Grid testbeds, to encourage exchange of research staff and students, and to ensure close collaboration and wide dissemination of its results to the international community. Organising CoreGRID Integration Workshops is one of the activities that aims at identifying and promoting durable collaboration between partners involved in the network.

The 12 Week Year Brian P. Moran, Michael Lennington, 2013-05-15 The guide to shortening your execution cycle down from one year to twelve weeks Most organizations and individuals work in the context of annual goals and plans; a twelve-month execution cycle. Instead, The 12 Week Year avoids the pitfalls and low productivity of annualized thinking. This book redefines your year to be 12 weeks long. In 12 weeks, there just isn't enough time to get complacent, and urgency increases and intensifies. The 12 Week Year creates focus and clarity on what matters most and a sense of urgency to do it now. In the end more of the important stuff gets done and the impact on results is profound. Explains how to leverage the power of a 12 week year to drive improved results in any area of your life Offers a how-to book for both individuals and organizations seeking to improve their execution effectiveness Authors are leading experts on execution and implementation Turn your organization's idea of a year on its head, and speed your journey to success.

168 Hours Laura Vanderkam, 2011-05-31 It's an unquestioned truth of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer. Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter.
