Xerography Debt Davida G. Breier, 2014-07 Xerography Debt might be best summarized as an obsession for all involved, none of which are likely to be as wealthy as the preserved zine king depicted on the cover. Billy da Bling Bunny Roberts recently said It's the glue that holds the zine community together. Maintaining three issues per year, the 38th issue of Xerography Debt is still the same ol' charming personality, allowing a hand-picked cast of contributors to wax philosophical about the zines they love. In an age of blogs and tweets, Xerography Debt is a beautiful, earnest anachronism, a publication that seems to come from a different era, but is firmly entrenched in the now.

The Writing Revolution Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

They contain diary entries, rants, interviews, and stories. They can be by one person or many, found in stores, traded at comic conventions, exchanged with friends, or given away for free. It's for learning tips and tricks from contributors who have been at the forefront of the zine movement. It's for learning how to design and print your own zine so you can put it in others' hands. It's for anyone who has something to say.--From publisher description.
