*Getting to Graduation* Andrew P. Kelly, Mark Schneider, 2012-09 What will it take to achieve President Obama's higher education completion agenda? The United States, long considered to have the best higher education in the world, now ranks eleventh in the proportion of 25- to 34-year-olds with a college degree. As other countries have made dramatic gains in degree attainment, the U.S. has improved more slowly. In response, President Obama recently laid out a national "completion agenda" with the goal of making the U.S. the best-educated nation in the world by the year 2020. *Getting to Graduation* explores the reforms that we must pursue to recover a position of international leadership in higher education as well as the obstacles to those reforms. This new completion agenda puts increased pressure on institutions to promote student success and improve institutional productivity in a time of declining public revenue. In this volume, scholars of higher education and public policymakers describe promising directions for reform. They argue that it is essential to redefine postsecondary education and to consider a broader range of learning opportunities—beyond the research university and traditional bachelor degree programs—to include community colleges, occupational certificate programs, and apprenticeships. The authors also emphasize the need to rethink policies governing financial aid, remediation, and institutional funding to promote degree completion.

*Caring in Times of Precarity* Chow Yiu Fai, 2018-12-14 *Caring in Times of Precarity* draws together two key cultural observations: the increase in those living a single life, and the growing attraction of creative careers. Straddling this historical juncture, the book focuses on one particular group of 'precariat': single women in Shanghai in various forms of creative (self-)employment. While negotiating their share of the uncanny creative work ethos, these women also find themselves interpellated as shengnü ('left-over women') in a society configured by a mix of Confucian values, heterosexual ideals, and global images of womanhood. Following these women's professional, social and intimate lives, the book refuses to see their singlehood and creative labour as problematic, and them as victims. It departs from dominant thinking on precarity, which foregrounds and critiques the contemporary need to be flexible, mobile, and spontaneous to the extent of (self-)exploitation, accepting insecurity. The book seeks to understand—empirically and specifically—women's everyday struggles and pleasures. It highlights the up-close, everyday embodied, affective, and subjective experience in a particular Chinese city, with broader, global resonances well beyond China. Exploring the limits of the politics of precarity, the book proposes

an ethics of care.

*A JOB BEFORE GRADUATION* Gokul Santhanam,2020-10-23 Want to graduate with a job in hand? Then this book is for you. The number of engineering graduates passing out every year is at least 50% more than the number of jobs available. Also, 90% of these graduates are not job-ready. Your Placement team can only help bring companies to your campus. It is your responsibility to prepare yourself to get a good job. The onus is on you. The earlier you start preparing, the better. Written in simple language, it contains clear steps for you to work on during your time in college. Based on his experience of recruiting several thousand students from engineering colleges, Gokul Santhanam gives you proven tips to help you graduate with a job in hand. An excellent, pragmatic guide for students in the “cusp generation” of these challenging times. This book is a timely assist, and a must-read for those in the middle of it all: one leg in campus and the other, seeking a good job. - Satish Pradhan, Ex-Head of Group HR, Tata Group

**The Handbook of Institutional Research** Richard D. Howard,Gerald W. McLaughlin,William E. Knight,2012-06-28 Institutional research is more relevant today than ever before as growing pressures for improved student learning and increased institutional accountability motivate higher education to effectively use ever-expanding data and information resources. As the most current and comprehensive volume on the topic, the Handbook describes the fundamental knowledge, techniques, and strategies that define institutional research. The book contains an overview of the profession and its history, examines how institutional research supports executive and academic leadership and governance, and discusses the varied ways data from federal, state, and campus sources are used by research professionals. With contributions from leading experts in the field, this important resource reviews the analytic tools, techniques, and methodologies used by institutional researchers in their professional practice and covers a wide range of topics such as: conducting institutional research; statistical applications; comparative analyses; quality control systems; measuring student, faculty, and staff opinions; and management activities designed to improve organizational effectiveness.

**International Medical Graduate and the United States Medical Residency Application** Raghav Govindarajan,Sachin M. Bhagavan,Swathi Beladakere Ramaswamy,2020-02-04 This unique, socially conscience reference provides valuable guidance to international medical graduates (IMG’s) looking to complete a residency in the United States. The medical residency application process in the United States is competitive and complex. Additionally, many IMG’s go through training programs that sharply differ from the medical school training and the sociocultural elements of United States medicine and residency are unlike any other country. Organized into three parts, this book meets the need for a pragmatic, evidence based guide that answers important questions, and imparts indispensable advice to IMGs. Part I directly tackles the concerns IMG’s have regarding specific elements of residency applications, including the importance of a master’s degree and how to get a strong letter of recommendation. Part II then addresses how to prepare for interviews,

preliminary programs and travel. Finally, the book answers the common “what ifs” and “what’s next” questions many IMG’s ponder. *International Medical Graduate and the United States Medical Residency Application: A Guide to Achieving Success* is a first-of-its-kind resource that presents a holistic view of residency application peppered with real life examples, easy to grasp tables and flow charts and key do’s and don’ts to drive home the complex process involved in residency application.

This Is Water Kenyon College, 2014-05-22 Only once did David Foster Wallace give a public talk on his views on life, during a commencement address given in 2005 at Kenyon College. The speech is reprinted for the first time in book form in *THIS IS WATER*. How does one keep from going through their comfortable, prosperous adult life unconsciously? How do we get ourselves out of the foreground of our thoughts and achieve compassion? The speech captures Wallace's electric intellect as well as his grace in attention to others. After his death, it became a treasured piece of writing reprinted in *The Wall Street Journal* and the *London Times*, commented on endlessly in blogs, and emailed from friend to friend. Writing with his one-of-a-kind blend of causal humor, exacting intellect, and practical philosophy, David Foster Wallace probes the challenges of daily living and offers advice that renews us with every reading.

*Navigating the Transition from High School to College for Students with Disabilities* Meg Grigal, Joseph Madaus, Lyman Dukes III, Debra Hart, 2018-07-16 Navigating the Transition from High School to College for Students with Disabilities provides effective strategies for navigating the transition process from high school into college for students with a wide range of disabilities. As students with disabilities attend two and four-year colleges in increasing numbers and through expanding access opportunities, challenges remain in helping these students and their families prepare for and successfully

transition into higher education. Professionals and families supporting transition activities are often unaware of today's new and rapidly developing options for postsecondary education. This practical guide offers user-friendly resources, including vignettes, research summaries, and hands-on activities that can be easily implemented in the classroom and in the community and that facilitate strong collaboration between schools and families. Preparation issues such as financial aid, applying for college, and other long-term planning areas are addressed in detail. An accompanying student resource section offers materials for high school students with disabilities that secondary educators, counselors, and transition personnel can use to facilitate exploration and planning discussions. Framing higher education as a possible transition goal for all students with disabilities, *Navigating the Transition from High School to College for Students with Disabilities* supports the postsecondary interests of more than four million public school students with disabilities.

**Transforming Business Education for a Sustainable Future** Linda Irwin, Isabel Rimanoczy, Morgane Fritz, James Weichert, 2023-12-22 As the impact of climate change becomes more evident and dire, business leaders, educators, students, and academic leaders are deciding what they need to change and do to survive and thrive in a new and dramatically different environment. This book sets out how to transform business education and integrate sustainability practices into curriculum and a wider academic culture. While some universities around the globe are still teaching business practices that have contributed to human and environmental crises, pioneering educators and higher education institutions are researching, developing, and implementing programs to transform business education and practices. With stories from 26 administrators, researchers, and faculty across the globe, this book inspires business educators with innovative tools and creative solutions to address challenges in the business world and society. These pioneers are helping students and business ventures change the way they conduct business to survive and thrive in a fast-changing global environment. Their unique and personal journeys offer tools, models, lessons-learned, and inspiration for change. The book will both inspire and guide faculty

members, administrators, students, and alumni to transform business education for a sustainable future.

**Holistic Neurorehabilitation** Pamela S. Klonoff,2024-01-31 This handbook is meant to guide you through post-acute holistic rehabilitation for patients with acquired brain injuries. Cognitive, language, communication, emotional, functional, interpersonal, spiritual, and quality of life aspects are addressed using restorative and compensatory interdisciplinary approaches. Superseding goals are enhanced fundamental life skills, well-being, and quality of life--

Planning and Assessment in Higher Education Michael F. Middaugh,2011-01-25 PLANNING AND ASSESSMENT IN HIGHER EDUCATION Demonstrating Institutional Effectiveness In this era of increasing pressure on higher education institutions for accountability, Planning and Assessment in Higher Education is an essential resource for college and university leaders and staff charged with the task of providing evidence of institutional effectiveness. Michael F. Middaugh, a noted expert in the field, shows how colleges and universities can successfully measure student learning and institutional effectiveness and use these results to create more efficient communications with both internal and external constituencies as well as promote institutional effectiveness to support student learning. How can the assessment of institutional effectiveness be used to provide a solid foundation for planning? Middaugh has crafted a comprehensive, practical guide that also explains what accrediting agencies really want and need to know about these topics. Elizabeth H. Sibolski, executive vice president, Middle States Commission on Higher Education Only Michael Middaugh, the unquestioned national leader in this field, could write such a lucid overview of how to make institutional assessment and planning really work as a tool rather than as a tedious requirement. He helped invent and shape the focus of national assessment rubrics and now offers his insights into how to make them work for your institution. John C. Cavanaugh, chancellor, Pennsylvania State System of Higher Education Middaugh provides extremely helpful and practical guidance and insights on how colleges and universities can use assessment tools and frameworks to improve both academic programs and administrative operations. A valuable and timely book for all higher education leaders. James P. Honan, senior lecturer on education, Harvard Graduate School of Education

*Transparent Design in Higher Education Teaching and Leadership* Mary-Ann Winkelmes,Allison Boye,Suzanne Tapp,2023-07-03 This book offers a comprehensive guide to the Transparency in Learning and Teaching (TILT) framework that has convincingly demonstrated that implementation increases retention and improved outcomes for all students. Its premise is simple: to make learning processes explicit and equitably accessible for all students. Transparent instruction

involves faculty/student discussion about several important aspects of academic work before students undertake that work, making explicit the purpose of the work, the knowledge that will be gained and its utility in students' lives beyond college; explaining the tasks involved, the expected criteria, and providing multiple examples of real-world work applications of the specific academic discipline. The simple change of making objective and methods explicit - that faculty recognize as consistent with their teaching goals - creates substantial benefits for students and demonstrably increases such predictors of college students' success as academic confidence, sense of belonging in college, self-awareness of skill development, and persistence. This guide presents a brief history of TILT, summarizes both past and current research on its impact on learning, and describes the three-part Transparency Framework (of purposes, tasks and criteria). The three sections of the book in turn demonstrate why and how transparent instruction works suggesting strategies for instructors who wish to adopt it; describing how educational developers and teaching centers have adopted the Framework; and concluding with examples of how several institutions have used the Framework to connect the daily work of faculty with the learning goals that departments, programs and institutions aim to demonstrate.

[Ditch That Textbook](#) Matt Miller,2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.
