**Ultimate Performance** Nicholas C. Burkholder,Scott Golas,Jeremy P. Shapiro,2007-07-20 Meeting the challenges of high-performance HR Until 1760 ships routinely disappeared, ran aground, or sank because seafarers could not measure longitude. The cost in life and property was immense. Today, business faces a similar challenge, as the failure to measure human resources performance is just as costly and deadly to modern organizations. Senior executives once considered HR a soft, unavoidable cost of doing business, responsible for compensation, employee transactions, company functions, workforce problems, and legal issues. Three factors changed this perception: the significant impact of high-performance HR, the implications of poorly performing HR, and soaring HR operating expenses. These factors have led to an increased demand and focus on HR metrics. Ultimate Performance approaches this challenge by providing clear, proven measurement solutions that will optimize the performance of people and businesses.

**Federal Emergency Management Agency Incident Management Handbook** Federal Emergency Management Agency (U.S.),2018-05-11 The Federal Emergency Management Agency (FEMA) is responsible for coordinating the delivery of federal support to state, local, tribal, and territorial governments under Presidential emergency or major disaster declarations or to other federal agencies under the concept of federal-to-federal support. It is important to recognize that FEMA does not assume responsibility for local incident command activities but, instead, provides a structure for the command, control, and coordination of federal resources to states, local incident commands, and other end users. The FEMA Incident Management Handbook (IMH) is a tool to assist FEMA emergency management personnel in conducting their assigned missions in the field. The IMH provides information on FEMA's incident-level operating concepts, organizational structures, functions, position descriptions, and key assets and teams. The IMH is intended for use by FEMA personnel deployed at the incident level. However, the IMH also provides whole community stakeholders operating in a FEMA facility information about key incident-level FEMA functions. The concepts in the IMH are applicable to FEMA operations during Stafford Act-based Presidential declarations and non-Stafford Act incidents involving federal-to-federal support.
