Scott Kelby's 7-Point System for Adobe Photoshop CS3 Scott Kelby,2007-10-16 Scott Kelby, the world's #1 bestselling Photoshop author, and the man who changed the Photoshop and digital photography world with his ground-breaking, award-winning Photoshop Book for Digital Photographers unveils a exciting, brand new way of thinking, and working in Adobe Photoshop that will not only change the industry again, but it will change the way we all work in Photoshop forever, so we can finally spend less time fixing our images, and more time finishing them. You're about to become a Photoshop Shark! Scott has focused in and really narrowed things down to just exactly which Photoshop tools and techniques we absolutely, positively have to know, and he found that there are just seven major tools, seven major features that we have to master to enhance our images like a pro. But then he took it a step further. Out of those seven major tools, he looked at which parts or sections of those tools do we really need to master, and which parts can we pretty much ignore (in other words, he whittled it down so you're not learning parts of the tools that you're probably never going to need). Then, and perhaps most importantly, he determined exactly when and in which order to apply these seven techniques that make up Scott's amazing Photoshop

Seven Point System. But the magic of this book, is not just listing the seven tools and showing how they work. It's how they're used together, and how Scott teaches them (and makes it stick), that makes this book so unique. You're not going to just learn one technique for fixing shadows, and another technique for adjusting color (every Photoshop book pretty much does that, right?). Instead, you're going to start off at square one, from scratch, as each chapter is just one photo—one project—one challenging lifeless image (you'll follow along using his the same images), and you're going to unleash these seven tools, in a very specific way, and you're going to do it again, and again, and again, in order on different photos, in different situations, until they are absolutely second nature. You're finally going to do the FULL fix—from beginning to end—with nothing left out, and once you learn these seven very specific techniques, and apply them in order, there won't be a an image that appears on your screen that you won't be able to enhance, fix, edit, and finish yourself! Plus, Scott's techniques work across a wide range of photos, and that's exactly what you'll be working on in the book, from landscapes to portraits, to architectural, to nature, from event photography to everything in between—there isn't a photo you won't be able to beat! This is the book you've been waiting for, the industry's been waiting for, and Scott's Adobe Photoshop Seven Point System is so revolutionary that he's officially applied for a patent with the U.S. Patent and Trademark Office, and this new system is only found in this amazing, ground breaking new book. Once you learn these techniques, and start applying them yourself, you'll be the next one to say—You can't beat 'The System!'

**The Jinni Key** Bethany Atazadeh,2019-12-03 She holds the key to his heart, and he wants it back. When Arie reveals her Gift, she thinks the worst is over. But she couldn't be more wrong. The only one who can save her now is a mermaid named Rena. Rena is the youngest daughter of the Sea King, and she's dreamed of the surface for years. But her first visit on her 16th birthday isn't what she expects. She watches a Jinni fall from the sky—and chooses to save him, despite her mother's warnings that all Jinn are evil. Once she meets Gideon, she can't get him out of her mind. And maybe, with a little help from

Arie and some magic of her own, she doesn't have to... The Jinni Key is a loose Little Mermaid retelling. Set in a world that humans share with mermaids, dragons, and the elusive Jinn, this is not the fairytale you remember... If you enjoy fantasy worlds, magical races, and surprising spins on classic fairy tales, then you'll love this enchanting retelling of The Little Mermaid. WHAT READERS ARE SAYING: There was very little that I predicted, when there was a moment of loss I truly felt it, and I loved the unique spins she placed on the well-known THE LITTLE MERMAID tale. Rachael Martin (Goodreads Reviewer) I went into this story super excited to find out more about Rena and Arie, and I was left unable to wait for the next book! I seriously read this book in one sitting (which left everything aching, but so worth it!). I absolutely loved The Stolen Kingdom, and book two did not disappoint. The Jinni Key's world-building was actually one of my favorites, so complex and detailed and very fun. Sarah Sutton (Goodreads Reviewer) I couldn't even put the book down because I had to know what happened... These are the kind of retellings that I love because while the base story is weaved in there lightly the story doesn't rely on The Little Mermaid. It goes so far past that and you are invested in everything that is happening... Katelyn Spedden (Goodreads Reviewer) There is so much action going on in this book and as the story moved on, the stakes kept getting higher and higher - I couldn't put it down (read it in a few hours) and I can't wait to read the next book in the series! Elira Barnes (Goodreads Reviewer) This was an amazing second book! All of Bethany's hard work paid off ten fold! I loved how all the relationships developed and all the animal moments. I especially love Rena and her quirky personality. She makes an amazing POV character. Andrea Roberts (Goodreads Reviewer) Once again, Bethany Atazadeh takes some risks with this Little Mermaid retelling and mixes in a lot of original story and world elements, along with engaging characters to make it an intriguing and magical read that I was sad to see end. Janine (Goodreads Reviewer) I loved finding out what happens next. I'm excited and am definitely going to read the third book. Captivating story. Kaylee White (Goodreads Reviewer) THE STOLEN KINGDOM SERIES READING ORDER: Book 1: The Stolen Kingdom: An Aladdin retelling Book 2: The Jinni Key: A Little Mermaid retelling Book 3: The Cursed Hunter: A Beauty and the Beast retelling Book 4: The Enchanted Crown: A Sleeping Beauty retelling THE QUEEN'S RISE SERIES (a connected trilogy in The Stolen Kingdom Universe) Book 1: The Secret Gift Book 2: The Secret Shadow Book 3: The Secret Curse
