Hurricane Katrina David M. Walker (au), 2006-08 Testimony of David Walker, Comptroller Gen. of the U.S., before the Comm. on Homeland Security & Governmental Affairs, U.S. Senate. The size & strength of Hurricane Katrina resulted in one of the largest natural disasters in our nation's history. Hurricane Katrina raised major questions about our nation's readiness & ability to respond to catastrophic disasters. Hurricane Rita increased demands on an already stressed response & recovery effort by all levels of government. The two hurricanes provided a sobering picture of the overwhelming strains on response & recovery if there are back-to-back catastrophic disasters in the same area. Includes recommendations.

Disaster Response: Criteria for Developing and Validating Effective Response Plans William O. Jenkins, 2011-04 Among the lessons learned from the aftermath of Hurricane Katrina was that effective disaster response requires planning followed by the execution of training and exercises to validate those plans. FEMA is responsible for disaster response planning. This testimony focuses on: (1) criteria for effective disaster response planning established in FEMA's National Response Framework; (2) additional guidance for disaster planning; (3) the status of disaster planning efforts; and (4) special circumstances in planning for oil spills. The auditor reviewed the policies and plans that form the basis of the preparedness system. This is a print on demand edition of an important, hard-to-find report.
