Red Hood Elana K. Arnold,2020-02-25 A dark, engrossing, blood-drenched tale of the familiar threats to female power—and one girl’s journey to regain it. Five starred reviews greeted this powerful story from Elana K. Arnold, author of the Printz Honor winner *Damsel*. You are alone in the woods, seen only by the unblinking yellow moon. Your hands are empty. You are nearly naked. And the wolf is angry. Since her grandmother became her caretaker when she was four years old, Bisou Martel has lived a quiet life in a little house in Seattle. She’s kept mostly to herself. She’s been good. But then comes the night of homecoming, when she finds herself running for her life over roots and between trees, a fury of claws and teeth behind her. A wolf attacks. Bisou fights back. A new moon rises. And with it, questions. About the blood in Bisou’s past, and on her hands as she stumbles home. About broken boys and vicious wolves. About girls lost in the woods—frightened, but not alone.

When Only Love Remains Durjoy Datta,2014-06-15 I’ve imagined this in my head so many times. I’ve always thought about what I would say; what I would do, and how it would all turn out to be. And every time I would remove some detail . . . She’s a flight attendant—young, bright and living her dream. He’s a heartbroken singer on his way to becoming big. She’s an ardent fan of his. He can’t imagine why and yet seems to find comfort in her words. It’s the first time they are together and in their hearts both are wishing, hoping and praying that the night would never end. That the time they are spending together lasts and lasts... In the world of love, there is always someone perfectly right for you.

Perl Template Toolkit Darren Chamberlain,Dave Cross,Andy Wardley,2003-12-23 Among the many different approaches to templating with Perl--such as Embperl, Mason, HTML::Template, and hundreds of other lesser known systems--the Template Toolkit is widely recognized as one of the most versatile. Like other templating systems, the Template Toolkit allows programmers to embed Perl code and custom macros into HTML documents in order to create customized documents on the fly. But unlike the others, the Template Toolkit is as facile at producing HTML as it is at producing XML, PDF, or any other output format. And because it has its own simple templating language, templates can be written and edited by people who don't know Perl. In short, the Template Toolkit combines the best features of its competitors, with ease-of-use and flexibility, resulting in a technology that's fast, powerful and extensible, and ideally suited to the production and maintenance

of web content and other dynamic document systems. In Perl Template Toolkit you'll find detailed coverage of this increasingly popular technology. Written by core members of the technology's development team, the book guides you through the entire process of installing, configuring, using, and extending the Template Toolkit. It begins with a fast-paced but thorough tutorial on building web content with the Template Toolkit, and then walks you through generating and using data files, particularly with XML. It also provides detailed information on the Template Toolkit's modules, libraries, and tools in addition to a complete reference manual. Topics in the book include: Getting started with the template toolkit The Template language Template directives Filters Plugins Extending the Template Toolkit Accessing databases XML Advanced static web page techniques Dynamic web content and web applications The only book to cover this important tool, Perl Template Toolkit is essential reading for any Perl programmer who wants to create dynamic web content that is remarkably easy to maintain. This book is your surefire guide to implementing this fast, flexible, and powerful templating system.

The Important Book Margaret Wise Brown, 1990-03-10 The important thing about The Important Book -- is that you let your child tell you what is important about the sun and the moon and the wind and the rain and a bug and a bee and a chair and a table and a pencil and a bear and a rainbow and a cat (if he wants to). For the important thing about The Important Book is that the book goes on long after it is closed. What is most important about many familiar things -- like rain and wind, apples and daisies -- is suggested in rhythmic words and vivid pictures. 'A perfect book . . . the text establishes a word game which tiny children will accept with glee.' -- K.

Crowned A Traitor Kate Callaghan, 2021-03-04 A Young Adult Dark Fantasy from Hell. The hunt for Klara will keep you on the edge of your seat in this fast-paced and suspenseful Fantasy novel.

The Devouring Wolf Natalie C. Parker, 2022-08-02 A perfect read for every kid and every kid at heart who's ever felt like they weren't enough. This story of family in all its many forms is as deliciously fun to read as it is deeply relevant. —Julie Murphy, #1 New York Times bestselling author of Dear Sweet Pea A queer tale about kid werewolves, big bad mistakes, and terrifying creatures, perfect for fans of Katherine Arden and R.L. Stine. Little wolf, little wolf, here I come. It's the eve of the first full moon of summer and twelve-year-old Riley Callahan is ready to turn into a wolf. Nothing can ruin her mood: not her little brother Milo's teasing, not Mama N's smothering, and not even Mama C's absence from their pack's ceremony. But

then the unthinkable happens—something that violates every rule of wolf magic—Riley and four other kids don't shift. Riley is left with questions that even the pack leaders don't have answers to. And to make matters far worse, it appears something was awoken in the woods that same night. The Devouring Wolf. The elders tell the tale of the Devouring Wolf to scare young pups into obedience. It's a terrifying campfire story for fledging wolves, an old legend of a giant creature who consumes the magic inside young werewolves. But to Riley, the Devouring Wolf is more than lore: it's real and it's after her and her friends.

Discover Your Soul Template Marcus T. Anthony, 2012-02-22 How to create the life you want in alignment with your soul's purpose • Reveal your soul aptitudes, limiting behaviors, and past-life karmic issues • Discover 14 easy-to-use spiritual tools to strengthen your intuition to profound levels and develop an inner source of guidance and wisdom for any situation • Learn why the Law of Attraction doesn't work for most people and how to make it work for you Like an enlightened spiritual teacher, you, too, can tap in to the infinite wisdom of the cosmos to create a life of deep meaning and purpose. The key is integrated intelligence--your innate capacity, often experienced as "intuition," to instantly draw upon knowledge beyond the confines of the five senses, from past, present, and future. Integrated intelligence enables not only a connection to the wisdom of the universe but also access to your soul template, revealing your self-limiting behaviors, karmic issues from past lives, and soul aptitudes--the abilities at which you excel. With knowledge of your soul template, you can successfully create the life you were meant to live in alignment with your soul's purpose. Providing 14 easy-to-use spiritual tools to activate your integrated intelligence, Marcus Anthony shows you how to tap in to the wisdom of your soul template, distinguish the voice of ego from the voice of your inner sage, and strengthen your intuition to profound levels, thereby developing a trusted inner source of guidance. Explaining how the mind is not a shallow pond but an ocean of competing voices and energies, he reveals why the Law of Attraction doesn't work for most people: any vision you attempt to manifest must be aligned with your soul template or the competing voices will act against it. Revealing how to bring the mind into presence to get "the secret" to work for you, Anthony shows how to use integrated intelligence to identify and live your true calling and create the life you want while fulfilling the deeper needs of your spirit.

Romancing the Beat Gwen Hayes,2016 What makes a romance novel a romance? How do you write a kissing book?Writing a well-structured romance isn't the same as writing any other genre-something the popular novel and screenwriting guides don't address. The romance arc is made up of its own story beats, and the external plot and theme need to be braided to the romance arc-not the other way around.Told in conversational (and often irreverent) prose, *Romancing the Beat* can be read like you are sitting down to coffee with romance editor and author Gwen Hayes while she explains story structure. The way she does with her clients. Some of whom are regular inhabitants of the New York Times and USA Today bestseller lists.*Romancing the Beat* is a recipe, not a rigid system. The beats don't care if you plot or outline before you write, or if you pants your way through the drafts and do a beat check when you're revising. Pantsers and plotters are both welcome. So sit down, grab a cuppa, and let's talk about kissing books.

Story Genius Lisa Cron,2016-08-09 Following on the heels of Lisa Cron's breakout first book, *Wired for Story*, this writing guide reveals how to use cognitive storytelling strategies to build a scene-by-scene blueprint for a riveting story. It's every novelist's greatest fear: pouring their blood, sweat, and tears into writing hundreds of pages only to realize that their story has no sense of urgency, no internal logic, and so is a page one rewrite. The prevailing wisdom in the writing community is that there are just two ways around this problem: pantsing (winging it) and plotting (focusing on the external plot). Story coach Lisa Cron has spent her career discovering why these methods don't work and coming up with a powerful alternative, based on the science behind what our brains are wired to crave in every story we read (and it's not what you think). In *Story Genius* Cron takes you, step-by-step, through the creation of a novel from the first glimmer of an idea, to a complete multilayered blueprint—including fully realized scenes—that evolves into a first draft with the authority, richness, and command of a riveting sixth or seventh draft.
