Look, Listen, Learn, LEAD Jeffery Smith, Kate Wolfe Maxlow, John Caggianno, Karen L. Sanzo, 2020-10-01 Look, Listen, Learn, LEAD: A District-Wide Systems Approach to Teaching and Learning in PreK-12 lays out the transformational journey of Hampton City Schools (HCS), an urban school division of 30 schools in southeastern Virginia. Our school district faces numerous challenges, such as 62% of students receiving free and reduced-price lunch and 14% of students holding an IEP, and in 2015-2016, Hampton City Schools' state accreditation rate was approximately half the statewide rate and on a downward trend. In only three years, that was turned around and HCS exceeded the statewide accreditation rate, a more than 100% improvement with 100% of our schools accredited without conditions. We attribute this in large part to our dedicated educators and their implementation of district-wide systems for curriculum, instruction, checking for student understanding, climate, and culture. The goal of this book is to break down the process of what it takes to bring about large-scale educational change that is sustainable. We describe a process for developing a strong mission and vision to undergird the work around a variety of district-wide systems. This book provides insights into how to improve climate and culture, create a guaranteed and viable written curriculum, establish a process for evaluating its implementation, and create a balanced assessment framework to measure student success. Complete with example templates, action plans, and lessons learned, this book is a true example of theory-into-practice to bring about sustained improvement for all learners.

The Hybrid Teacher Emma Pass, 2021-07-14 A practical, educational technology resource for educators teaching remotely or in the classroom The most effective hybrid teachers are those that have a vast knowledge of instructional strategies, technologies, tools, and resources, and can masterfully build meaningful relationships with students in-person and through a screen. The Hybrid Teacher: Using Technology to Teach In-Person and Online will teach educators to leverage the technology they have access to both in their traditional brick-and-mortar classrooms and in remote learning environments, including established online and hybrid schools; emergency response models for pandemics, natural disasters; rural education; and connecting with students who can't make it to school. Many of us had to adapt to online teaching during the COVID-19 pandemic, but we still need resources for optimizing our instruction and becoming the best teachers we can be. This book is a practical guide for teachers who want to prepare for current and future remote instruction or leverage the best practices of remote instruction and EdTech tools to bring back to their brick-and-mortar classrooms. Inside, you'll learn about the impact of social and economic differences on classroom technology, and you'll find strategies and advice for

maximizing success in each situation. Learn how best to leverage technology in traditional brick-and-mortar and remote classrooms, with case studies of the hybrid school model Gain tips and techniques to ensure that your teachers, students, and parents have the skills to succeed with technology Discover strategies for setting norms and expectations and transitioning between online and traditional learning Put into place proven methods for accountability and assessment of classroom successes Gain resources to the most effective educational technologies available today in multiple subject areas including English language arts, science, math, social studies, visual arts, dance, drama, music, and general education View sample lesson plans for how to implement tools into your classroom, build culture and community, and adapt for different learners Given the current push to remote teaching during the pandemic and the uncertainty over what the return to school and the traditional brick-and-mortar classroom will look like, *The Hybrid Teacher* will be an invaluable resource on the shelves of teachers and administrators alike.

What Every Educator Should Know About Using Google Kathryn Martin, 2012-02-01 Is Google taking over your classroom? Given the impact Google is having on day-to-day management, and specifically classroom applications, it's easy to see why Google is playing an ever-increasing role in education. This book uncovers the many applications available through Google--from shared documents, presentations, and spreadsheets, to mapping, calendars, and social networking tools--that offer a myriad of possibilities for instructional engagement, and details the implications for educators. User-friendly and accessible, this K-12 professional resource appeals to the novice Google user with step-by-step instructions for accessing and using the various tools available through Google. Suggestions for differentiation are also offered for teachers to provide access to all students. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports core concepts of STEM instruction.

Building the Intentional University Stephen M. Kosslyn, Ben Nelson, 2018-08-28 How to rebuild higher education from the ground up for the twenty-first century. Higher education is in crisis. It is too expensive, ineffective, and impractical for many of the world's students. But how would you reinvent it for the twenty-first century—how would you build it from the ground up? Many have speculated about changing higher education, but Minerva has actually created a new kind of university program. Its founders raised the funding, assembled the team, devised the curriculum and pedagogy, recruited the students, hired the faculty, and implemented a bold vision of a new and improved higher education. This book explains that vision and how it is being realized. The Minerva curriculum focuses on “practical knowledge” (knowledge students can use to adapt to a changing world); its pedagogy is based on scientific research on learning; it uses a novel technology platform to deliver small seminars in real time; and it offers a hybrid residential model where students live together, rotating through seven cities around the world. Minerva equips students with the cognitive tools they need to succeed in the world after graduation, building the core competencies of critical thinking, creative thinking, effective communication, and effective

interaction. The book offers readers both the story of this grand and sweeping idea and a blueprint for transforming higher education.

50+ Tech Tools for School Counselors Angela Cleveland, Stephen Sharp, 2019-05-08 Digital tools that will transform your practice Educating students in the 21st century is about more than preparing them for work in the digital age; it's also about connecting with the whole student and transcending barriers. Lesson Planner Template Molly Rose, 2020-03-16 This How To book is different. Unlike every other book you'll read with titles like *How To Craft The Perfect Lesson Plan in 165 Incredibly Simple Steps*, this book is different. It's a simple How To guide for creating a lesson plan that's right for you and your students and also an easy to follow workbook. We'll discuss what exactly a lesson plan is and why you even need one. We'll then go on to look at the process for creating a lesson plan, including the questions you need to consider (so that you don't forget anything important!) Then we've got 60 lesson plan templates for you to follow, with a double-page layout so that you have plenty of space for all your notes. We've even included

some 'Further Notes' pages at the back for anything else you need to jot down. Teaching students of any age is both a challenging and daunting prospect. With a well-thought-out lesson plan in place (anticipating the questions you'll face AND the answers) it will be much less daunting and much more exciting. Good luck! Molly

Lesson Planning with Purpose Christy McConnell,Bradley Conrad,P. Bruce Uhrmacher,2020 When teachers and students are both engaged in the educational enterprise, every day has the potential to be transformative. Lesson Planning with Purpose takes readers on a journey through many pathways to engaging and meaningful educational experiences. The text first discusses Perceptive Teaching: the belief that teachers must know themselves and their students while cultivating culturally sensitive, safe, and inviting spaces for learning for all students. Next, five unique approaches to lesson planning are explored: behaviorist, constructivist, aesthetic, ecological, and integrated social-emotional learning. Each chapter provides the rationale for the approach, its theoretical background, practical applications, and critiques and considerations. Chapters end with a sample lesson that can be compared across approaches. Book Features: A comprehensive examination of multiple approaches to lesson planning. Guidance for teachers on when to choose various approaches, as well as how they might mix and match and blend ideas. User-friendly lesson plan templates, sample lessons, and discussion questions. An appendix with lesson plan examples written by practicing teachers across content areas and age groups.
