You will learn about the different types of recommendation letters, from employment to academic to volunteer, and how to direct your letter to the appropriate audience. You'll even learn what to do if someone you haven't worked with closely asks you to be a reference, or how to deal with being asked for hundreds of recommendations at once. The Companion CD-ROM is filled with templates, examples, word banks, and worksheets, so that you can easily learn to verify experience, confirm competence, build credibility, and bolster confidence with just a simple letter. A recommendation is more than just a letter; it's often make-or-break in a candidate's application for school, volunteering, or employment. With the step-by-step instructions and writing guidelines in this book, you will learn how to write introductions; opening statements; the body, including a well-written, vivid assessment of character and work ethic; and a strong conclusion. This new book will also teach you how to appropriately sign your letter, and will provide you with tips of re-reading and editing it to make sure you gave an effective

recommendation. We spent hundreds of hours interviewing high school teachers, college professors, employers, and more who have nailed the art of composing effective communications. Object-Oriented Technology. ECOOP 2004 Workshop Reader Jacques Malenfant, Bjarte M. Østvold, 2005-01-24 This year, for the eighth time, the European Conference on Object-Oriented Programming (ECOOP) series, in cooperation with Springer, is glad to offer the object-oriented research community the ECOOP 2004 Workshop Reader, a compendium of workshop reports pertaining to the ECOOP 2004 conference, held in Oslo from June 15 to 19, 2004. ECOOP 2004 hosted 19 high-quality workshops covering a large spectrum of hot research topics. These workshops were chosen through a tight peer review process following a specific call for proposals ending on November 30, 2003. We are very grateful to the members of the Workshop Selection Committee for their careful reviews and hard work to put together the excellent workshop program. We also want to thank all submitters, accepted or not, to whom the workshop program equally owes its quality. This selection process was then followed by a selection of workshop participants, done by each team of organizers based on an open call for position papers. This participant selection process ensured that we gathered the most active researchers in each workshop research area, and therefore a fruitful working meeting. Following the tradition of the ECOOP Workshop Reader, we strove

for high-quality, value-adding and open-ended workshop reports. The result, as you can judge from the following pages, is a thought-provoking snapshot of the current search in object-orientation, full of pointers for further exploration of the covered topics. We want to thank our workshop organizers who, despite the additional burden, did a great job in putting together these reports.
