Reading for Our Lives Maya Payne Smart, 2022-08-02 An award-winning journalist and literacy advocate provides a clear, step-by-step guide to helping your child thrive as a reader and a learner. When her child went off to school, Maya Smart was shocked to discover that a good education in America is a long shot, in ways that few parents fully appreciate. Our current approach to literacy offers too little, too late, and attempting to play catch-up when our kids get to kindergarten can no longer be our default strategy. We have to start at the top. The brain architecture for reading develops rapidly during infancy, and early language experiences are critical to building it. That means parents' work as children's first teachers begins from day one too—and we need deeper knowledge to play our positions. *Reading for Our Lives* challenges the bath-book-bed mantra and the idea that reading aloud to our kids is enough to ensure school readiness. Instead, it gives parents easy, immediate, and accessible ways to nurture language and literacy development from the start. Through personal stories, historical accounts, scholarly research, and practical tips, this book presents the life-and-death urgency of literacy, investigates inequity in reading achievement, and illuminates a path to a true, transformative education for all.

Spanish Sentence Builders - A Lexicogrammar Approach Dylan Viñales,Gianfranco Conti,2021-05 This is the newly updated SECOND EDITION! This version has been fully re-checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; 4) A set of retrieval-practice translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce

each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.
