Have Her Over for Dinner Matt Moore,2010-03 Let's face it, today we are inundated with articles about cooking, food, and wine in almost every part of our lives. From The Wall Street Journal to Playboy Magazine, you'd be hard pressed not to find a commentary related to the subject of food. At a time when I'm trying to figure out my best financial opportunities or determine which girl of the SEC is the best looking, why am I being told how to cook something? The simple answer is women. Don't get me wrong, a quick glance at any men's magazine will always yield the same redundant taglines; Lose your Gut, 1001 Financial Solutions, or Score your Dream Job on the cover. However, by now the majority of writers have exhausted the subjects of health, wealth, and power as a means to attract women, and they realize that cooking is just another avenue that they can use to appeal to the wants and needs of their readers. Don't trust me? Take a stroll through the magazine aisle at your local grocery store, and you might find that even Field and Stream has gone haute-cuisine on your latest hunt. Confused by the last sentence? Good, this book is for you.

Cooking for Geeks Jeff Potter, 2010-07-20 Are you the innovative type, the cook who marches to a different drummer -- used to expressing your creativity instead of just following recipes? Are you interested in the science behind what happens to food while it's cooking? Do you want to learn what makes a recipe work so you can improvise and create your own unique dish? More than just a cookbook, *Cooking for Geeks* applies your curiosity to discovery, inspiration, and invention in the kitchen. Why is medium-rare steak so popular? Why do we bake some things at 350° F/175° C and others at 375° F/190° C? And how quickly does a pizza cook if we overclock an oven to 1,000° F/540° C? Author and cooking geek Jeff Potter provides the answers and offers a unique take on recipes -- from the sweet (a mean chocolate chip cookie) to the savory (duck confit sugo). This book is an excellent and intriguing resource for anyone who wants to experiment with cooking, even if you don't consider yourself a geek. Initialize your kitchen and calibrate your tools. Learn about the important reactions in cooking, such as protein denaturation, Maillard reactions, and caramelization, and how they impact the foods we cook. Play with your food using hydrocolloids and sous vide cooking. Gain firsthand insights from interviews with researchers, food scientists, knife experts, chefs, writers, and more, including author Harold McGee, TV personality Adam Savage, chemist Hervé This, and *xkcd*. My own session with the book made me feel a lot more confident in my cooking. --Monica Racic, *The New Yorker* I LOVE this book. It's inspiring, invigorating, and damned fun to spend time inside the mind of 'big picture' cooking. I'm Hungry! -- Adam Savage, co-host of Discovery Channel's *MythBusters* In his enchanting, funny, and informative book, *Cooking for Geeks* (O'Reilly), Jeff Potter tells us why things work in the kitchen and why they don't. -- Barbara Hanson, *New York Daily News*

Sausage Making Ryan Farr, Jessica Battilana, 2014-05-13 From the author of *Whole Beast Butchery*, “practical and delicious ways to use the most under-appreciated parts of the animal” (David Chang, chef/owner of Momofuku). With the rise of the handcrafted food movement, food lovers are going crazy for the all-natural, uniquely flavored, handmade sausages they’re finding in butcher cases everywhere. At San Francisco’s 4505 Meats, butcher Ryan Farr takes the craft of sausage making to a whole new level with his fiery chorizo, maple-bacon breakfast links, smoky bratwurst, creamy boudin blanc, and best-ever all-natural hot dogs. *Sausage Making* is Farr’s master course for all skill levels, featuring an overview of tools and ingredients, step-by-step sausage-making instructions, more than 175 full-color technique photos, and fifty recipes for his favorite classic and contemporary links. This comprehensive, all-in-one manual welcomes a new generation of meat lovers and DIY enthusiasts to one of the most satisfying and tasty culinary crafts. “It’s great to see some coarse, English-style sausage being championed so ably over the pond. For too long sausages have been made cheaply and without care—here’s a book to set that right.” —Tim Wilson, owner of The Ginger Pig, London, UK “You hold in your hands the *La Technique* of sausage-making. Loaded with beautiful photo-process and unparalleled information, this is the new gold standard for books on the subject.” —John Currence, chef/owner, City Grocery Restaurant Group “Farr, chef and owner of 4505 Meats in San Francisco, and Battilana use precise instructions and step-by-step photographs to teach readers how to make sausages, condiments, buns, and classical French preparations . . . Recommended for seasoned home cooks who’d like to advance their technique and expand their repertoire.” —Library Journal
