How to Start a Mobile Notary Business Nancy S. Oram,2012-08-04 Mobile Notaries have been a recognized profession for many years, providing a valuable service to those who can't go to a Notary, or just prefer the convenience of having the Notary come to them. Mobile Notaries typically charge for their mobile services in addition to any notarization fees. In relatively recent years, the loan and real estate industry has developed a need for Notary loan signing agents who guide a borrower through the process of signing the paperwork in a loan package, as well as witnessing and notarizing certain documents included in that packet. This provides an even greater potential for income to the mobile Notary. However, mobile Notaries can still make a very good living notarizing a myriad of non-loan documents without entering the loan signing industry at all. Becoming a Notary Public as an add-on service to your current employment or business is a good way to start your mobile Notary service. Not only will it give you an edge over competition for company positions and promotions, but will start you off with contacts and clients that will help your business quickly grow from part-time to full-time. This guide will show you how to start your own business as a mobile Notary Public either part-time or full-time.

Idaho Notary Public Handbook Idaho Secretary of State,2019-04-06 Everybody knows what a notary public does, right? Actually, there is much misunderstanding and confusion about what the proper role and duty of a notary is. A notary public does not legalize documents, or verify the accuracy or truthfulness of the content or statements made in a document, and yet the role that a notary plays in ascertaining the identity of the person who signs a document, placing that person under oath, if required, and determining the signer's intent and willingness to consent to the transaction is vital in modern society. A notary public is a public official commissioned by the Secretary of State to administer oaths and affirmations, take

acknowledgments, witness signatures, and perform other duties as permitted by state law. A notary should be familiar with the Idaho notary laws and to follow the standards of reasonable care for performing a notarial act.

Indiana Notary Public Guide Indiana Secretary of State,2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
