"GTD" is now shorthand for an entire way of approaching professional and personal tasks, and has spawned an entire culture of websites, organizational tools, seminars, and offshoots. Allen has rewritten the book from start to finish, tweaking his classic text with important perspectives on the new workplace, and adding material that will make the book fresh and relevant for years to come. Under Representation David Lloyd, 2018-11-13 *Under Representation* shows how the founding texts of aesthetic philosophy ground the racial order of the modern world in our concepts of universality, freedom, and humanity. In taking on the relation of aesthetics to race, Lloyd challenges the absence of sustained thought about race in postcolonial studies, as well as the lack of sustained attention to aesthetics in critical race theory. Late Enlightenment discourse on aesthetic experience proposes a decisive account of the conditions of possibility for universal human subjecthood. The aesthetic forges a powerful "racial regime of representation" whose genealogy runs from enlightenment thinkers like Kant and Schiller to late modernist critics like Adorno and Benjamin. For aesthetic philosophy, representation is not just about depiction of diverse humans or inclusion in political or cultural institutions. It is an activity that undergirds the various spheres of human practice and theory, from the most fundamental acts of perception and reflection to the relation of the subject to the political, the economic, and the social. Representation regulates the distribution of racial identifications along a developmental trajectory: The racialized remain "under representation," on the threshold of humanity and not yet capable of freedom and civility as aesthetic thought defines those attributes. To ignore the aesthetic is thus to overlook its continuing force in the formation of the racial and political structures down to the present. Across five chapters, *Under Representation* investigates the aesthetic

foundations of modern political subjectivity; race and the sublime; the logic of assimilation and the stereotype; the subaltern critique of representation; and the place of magic and the primitive in modernist concepts of art, aura and representation. Both a genealogy and an account of our present, *Under Representation* ultimately helps show how a political reading of aesthetics can help us build a racial politics adequate for the problems we face today, one that stakes claims more radical than multicultural demands for representation.

Wallet Activism Tanja Hester, 2021-11-16 2022 NATIONAL INDIE EXCELLENCE AWARDS FINALIST — SOCIAL/POLITICAL CHANGE • 2022 ASJA ANNUAL WRITING AWARD WINNER — SERVICE • 2022 NAUTILUS BOOK AWARDS GOLD MEDALIST — SOCIAL CHANGE & SOCIAL JUSTICE • 2022 AXIOM BUSINESS BOOK AWARD GOLD MEDALIST — PHILANTHROPY/NONPROFIT/SUSTAINABILITY How do we vote with our dollars, not just to make ourselves feel good, but to make a real difference? *Wallet Activism* challenges you to rethink your financial power so can feel confident spending, earning, and saving money in ways that align with your values. While we call the American system a democracy, capitalism is the far more powerful force in our lives. The greatest power we have—especially when political leaders won't move quickly enough—is how we use our money: where we shop, what we buy, where we live, what institutions we entrust with our money, who we work for, and where we donate determines the trajectory of our society and our planet. While our votes and voices are essential, too, *Wallet Activism* helps you use your money for real impact. It can feel overwhelming to determine “the right way” to spend: a choice that might seem beneficial to the environment may have unintended consequences that hurt people. And marketers are constantly lying to you, making it hard to know what choice is best. *Wallet Activism* empowers us to vote with our wallets by making sense of all the information coming at us, and teaching us to cultivate a more holistic mindset that considers the complex, interrelated ecosystems of people and the planet together, not as opposing forces. From Tanja Hester, Our Next Life blogger and author of *Work Optional*, comes the mindset-shifting guide to help you put your money where your values are. *Wallet Activism* is not a list of dos and don'ts that will soon become outdated, nor does it call for anti-consumerist perfection. Instead, it goes beyond simple purchasing decisions to explore: The impacts a financial decision can have across society and the environment How to create a personal spending philosophy based on your values Practical questions to quickly assess the “goodness” of a product or an entity you may buy from The ethics of earning money, choosing what foods to eat, employing others, investing responsibly, choosing where to live, and giving money away For anyone interested in leaving the world better than you found it, *Wallet Activism* helps you build habits that will make your money matter.

One Place after Another Miwon Kwon,2004-02-27 A critical history of site-specific art since the late 1960s. Site-specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality. Throughout the 1970s and 1980s, as site-specific art intersected with land art, process art, performance art, conceptual art, installation art, institutional critique, community-based art, and public art, its creators insisted on the inseparability of the work and its context. In recent years, however, the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum to remove the work is to destroy the work is being challenged by new models of site specificity and changes in institutional and market forces. *One Place after Another* offers a critical history of site-specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations. Informed by urban theory, postmodernist criticism in art and architecture, and debates concerning identity politics and the public sphere, the book addresses the siting of art as more than an artistic problem. It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism. The book addresses the work of, among others, John Ahearn, Mark Dion, Andrea Fraser, Donald Judd, Renee Green, Suzanne Lacy, Inigo Manglano-Ovalle, Richard Serra, Mierle Laderman Ukeles, and Fred Wilson.

Passion of the Western Mind Richard Tarnas,2011-10-19 [This] magnificent critical survey, with its inherent respect for both the 'West's mainstream high culture' and the 'radically changing world' of the 1990s, offers a new breakthrough for lay and scholarly readers alike....Allows readers to grasp the big picture of Western culture for the first time. SAN FRANCISCO CHRONICLE Here are the great minds of Western civilization and their pivotal ideas, from Plato to Hegel, from Augustine to Nietzsche, from Copernicus to Freud. Richard Tarnas performs the near-miracle of describing profound philosophical concepts simply but without simplifying them. Ten years in the making and already hailed as a classic, *THE PASSION OF THE WESTERN MIND* is truly a complete liberal education in a single volume.

An Introduction to Formal Logic Peter Smith,2003-11-06 Formal logic provides us with a powerful set of techniques for criticizing some arguments and showing others to be valid. These techniques are relevant to all of us with an interest in being skilful and accurate reasoners. In this highly accessible book, Peter Smith presents a guide to the fundamental aims and basic elements of formal logic. He introduces the reader to the languages of propositional and predicate logic, and then develops formal systems for evaluating arguments translated into these languages, concentrating on the easily comprehensible 'tree' method. His discussion is richly illustrated with worked examples and exercises. A distinctive feature is that, alongside the formal work, there is illuminating philosophical commentary. This book will make an ideal text for a first

logic course, and will provide a firm basis for further work in formal and philosophical logic.

Stiegler and Technics Christina Howells, 2013-09-16 These 17 essays covers all aspects of Bernard Stiegler's work, from poststructuralism, anthropology and psychoanalysis to his work on the politics of memory, 'libidinal economy', technoscience and aesthetics, keeping a focus on his key theory of technics throughout. Stiegler brings together key concepts from Plato, Freud, Derrida and Simondon to argue that the human is 'invented' through technics rather than a product of purely biological evolution. Stiegler is a thinker at the forefront of our contemporary concerns with consumerism, technology, inter-generational division, political apathy and economic crisis. His ambitious project is to go beyond these sources of social distress to uncover and examine precisely 'what makes life worth living'. Contributors include: Stephen Barker, University of California Irvine and translator of Steigler; Richard Beardsworth, American University of Paris and translator of Stiegler; Miguel de Beistegui; University of Warwick; Marc Crepon, Ecole normale superieure and co-founder of Stiegler's think tank, Ars Industrialis and Daniel Ross, co-director of 'The Ister', the award-winning film on Heidegger, and translator of Stiegler.

Aesthetic Theory and the Video Game Graeme Kirkpatrick, 2011-11-15 This book draws on aesthetic theory, including ideas from the history of painting, music and dance, to offer a fresh perspective on the video game as a popular cultural form. It argues that games like *Grand Theft Auto* and *Elektroplankton* are aesthetic objects that appeal to players because they offer an experience of form, as this idea was understood by philosophers like Immanuel Kant and Theodor Adorno. Video games are awkward objects that have defied efforts to categorize them within established academic disciplines and intellectual frameworks. Yet no one can deny their importance in re-configuring contemporary culture and their influence can

be seen in contemporary film, television, literature, music, dance and advertising. This book argues that their very awkwardness should form the starting point for a proper analysis of what games are and the reasons for their popularity. This book will appeal to anyone with a serious interest in the increasingly playful character of contemporary capitalist culture.

Dialectic of Enlightenment Max Horkheimer,Theodor W. Adorno,1993 A major study of modern culture, Dialectic of Enlightenment for many years led an underground existence among the homeless Left of the German Federal Republic until its definitive publication in West Germany in 1969. Originally composed by its two distinguished authors during their Californian exile in 1944, the book can stand as a monument of classic German progressive social theory in the twentieth century.>
