**Improving Adult Literacy Instruction** National Research Council,2012-08-27 More than an estimated 90 million adults in the United States lack the literacy skills needed for fully productive and secure lives. The effects of this shortfall are many: Adults with low literacy have lower rates of participation in the labor force and lower earnings when they do have jobs, for example. They are less able to understand and use health information. And they are less likely to read to their children, which may slow their children's own literacy development. At the request of the U.S. Department of Education, the National Research Council convened a committee of experts from many disciplines to synthesize research on literacy and learning in order to improve instruction for those served in adult education in the U.S. The committee's report, *Improving Adult Literacy Instruction: Options for Practice and Research*, recommends a program of research and innovation to gain a better understanding of adult literacy learners, improve instruction, and create the supports adults need for learning and

achievement. *Improving Adult Literacy Instruction: Developing Reading and Writing*, which is based on the report, presents an overview of what is known about how literacy develops the component skills of reading and writing, and the practices that are effective for developing them. It also describes principles of reading and writing instruction that can guide those who design and administer programs or courses to improve adult literacy skills. Although this is not intended as a how to manual for instructors, teachers may also find the information presented here to be helpful as they plan and deliver instruction.

**Social Smarts Strategies That Earn Free Book Publicity** Anne Hart,2006-03-27 Empathy and social smarts help you earn free book publicity by connecting you with key people, media, schools, and the publications of nonprofit agencies. As a writer, you can promote your own book and earn free book publicity by connecting key people, media, and nonprofits' newsletters with schools. Social intelligence used in book promotion is like a three-ring circus. Use empathy, that is people smarts, as a catalyst to bring together schools, nonprofit agencies, and authors. Observe, simplify, and offer commitment as charisma. Query editors of nonprofit publications. These nonprofit agencies often publish high-circulation newsletters and sometimes also publish sizable, glossy magazines. Some produce videos or documentaries. To connect with the nonprofit agencies' editors, use your social intelligence skills to make connections in the nonprofit agencies' public relations and communications departments. Join public relations societies, national associations, and help out the nonprofit agencies or organizations of your choice focusing on what gets published in their magazines or newsletters. If you want to earn free publicity for your book, supply these editors with facts, findings, and trends. Bring the nonprofits in contact with schools. When you talk to school assemblies or classrooms, relate your book topic to any specific work or project done by a nonprofit association for whom you could write an article for that association's newsletter or glossy magazine. Use social intelligence to connect to people. What you need to earn free publicity is self-awareness and an understanding of how the main topic of your book influences your own behavior and how others perceive your behavior.
