Architect + Entrepreneur Eric W. Reinholdt,2015 Part narrative, part business book; Architect + Entrepreneur is filled with contemporary, relevant, fresh tips and advice, from a seasoned professional architect building a new business. The guide advocates novel strategies and tools that merge entrepreneurship with the practice of architecture and interior design. The Problem:Embarking on a new business venture is intimidating; you have questions. But many of the resources available to help entrepreneur architects and interior designers start their design business lack timeliness and relevance. Most are geared toward building colossal firms like SOM and Gensler using outdated methods and old business models. If you're an individual or small team contemplating starting a design business, this is your field guide; crafted to inspire action. The Solution:Using the lean startup methodology to create a minimum viable product, the handbook encourages successive small wins that support a broader vision enabling one to, think big, start small, and learn fast. It's a unique take on design practice viewed through the lens of entrepreneurship and is designed to answer the questions all new business owners face, from the rote to the existential. Questions about: - Startup costs - Business models (old and new) - Marriage of business and design - Mindset - Branding & naming (exercises and ideas) - Internet marketing strategies - Passive income ideas - Setting your fee - Taxes - Standard Operating Procedures (SOPs) - Securing the work - Client relations - Software - Billing rates - Contracts Building a business isn't a singular act; it's a series of small steps. Using the outline found in Architect + Entrepreneur you can start today. The chapters are organized to guide you from idea to action. Rather than write a business plan you'll be challenged to craft a brand and you'll sell it using new technologies. Follow the guide sequentially and you'll have both the tools and a profitable small business.

Virtual Tour Profit Zachary Calhoon,2021-06-06 The untold story behind Virtual Tour Profit... From the desk of Zach Calhoon Co-Founder - CloudPano.com 3 years ago, I first saw a 360° immersive demo built by Clayton Rothschild - I knew I was looking into the future. I asked him if we could build software to create 360° virtual tours. He responded, Let's do it! Little did we know the real hard work ahead. Before we built CloudPano - and before we started investing in our software company, I followed my #1 principle in business - validate first. So I went to 3 real estate offices and presold the service. I literally had people sign up and pay me - before we had a working product. After 35+ people signed up to receive a 360° virtual tour for their real estate listing - I knew the market was there. We started CloudPano.com the next week. Fast forward to today, we have 23,000+ users in over 21 countries and 75,000+ virtual tours have been created. Users have sold projects from \$97 to \$50,000+ and they deliver them on CloudPano. In this book, I lay the step-by-step framework to profit from the sweeping trend - 360° virtual tours. Whether you are a brand new entrepreneur or an experienced vet. This unique VR Agency business model has the power to radically upgrade your business and change your life. Join me and let's take the ride together. I will see you inside. - Zach Calhoon
