You no longer have to waste time searching for age-appropriate ABC worksheets. Now you can enjoy a collection of kid-tested worksheets at your fingertips. Autumn McKay, author of The Ultimate Kindergarten Prep Guide, is a mother of 3 and understands the pressure to encourage learning at home, but it's hard to find time. Print writing is the ball and stick writing like you see here in this text. It's the font we are most used to seeing in our daily lives. A lot of schools have transitioned to only teaching handwriting using print font. However, print font can be difficult for young writers because it involves picking up the pencil and remembering the next step when forming a letter. Sometimes it's difficult for young writers to remember the next step. Precursive is a one-stroke type of handwriting. It is still single letter formation, but involves a lot of retracing when forming letters so that the child does not have to pick up their pencil and remember the next step to a form a letter. Precursive is a stepping stone to cursive handwriting, which most schools have done away with; however, teaching precursive handwriting does not mean you need to teach your child cursive. This book has you covered for uppercase and lowercase letters of the alphabet. Perfect for early learners just starting or elementary kids learning letters and handwriting.
