Slides for Students Gary D. Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. *Slides for Students* does just that. *Slides for Students* is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, *Slides for Students* discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

A Flicker of Hope Julia Cook,2018-12-04 HOPE is our children's window for a better tomorrow. In terms of resilience and well-being, hope is a critically important predictor of success. This creative story from the best-selling author of My Mouth is a Volcano!, and Bubble Gum Brain, reminds children that dark clouds can be temporary and asking for help is always okay. We all have times when we need to borrow a little hope from someone else.

When your clouds get too dark, and too heavy to push away, Reach out and ask, Can I borrow some light? I'm having a really bad day. It's always okay to admit to yourself, I just can't do it today. Everyone needs somebody sometimes, to help them find their way. Sometimes the dark clouds overhead seem too heavy and you feel like giving up. Little candle knows all about this. Bad grades, blasted on social media, worried about making the team, and wondering who her real friends are so many hard things to deal with! All she can see is darkness. But her story begins to change when someone notices she needs a boost of hope. As little candle is reminded she has purpose and her own unique gifts, and that she isn't the only one with dark clouds, her dim light begins to shine brighter. This hopeful story emphasizes for children (and adults) the many different ways to ask for help, and their ability to be a hope builder for others, too.
