Blanks, Print, Space, and Void in English Renaissance Literature Jonathan Sawday, 2023-06-20 Blanks, Print, Space, and Void in English Renaissance Literature is an inquiry into the empty spaces encountered not just on the pages of printed books in c.1500-1700, but in Renaissance culture more generally. The book argues that print culture in the sixteenth and seventeenth centuries helped to foster the modern idea of the 'gap' (where words, texts, images, and ideas are constructed as missing, lost, withheld, fragmented, or perhaps never devised in the first place). It re-imagines how early modern people reacted not just to printed books and documents of many different kinds, but also how the very idea of emptiness or absence began to be fashioned in a way which still surrounds us. Jonathan Sawday leads the reader through the entire landscape of early modern print culture, discussing topics such as: space and silence; the exploration of the vacuum; the ways in which race and racial identity in early modern England were constructed by the language and technology of print; blackness and whiteness, together with lightness, darkness, and sightlessness; cartography and emptiness; the effect of typography on reading practices; the social spaces of the page; gendered surfaces; hierarchies of information; books of memory; pages constructed as waste or vacant; the genesis of blank forms and early modern bureaucracy; the political and devotional spaces of printed books; the impact of censorship; and the problem posed by texts which lack endings or conclusions. The book itself ends by dwelling on blank or empty pages as a sign of human mortality. Sawday pays close attention to the writings of many of the familiar figures in English Renaissance literary culture - Sidney, Shakespeare, Donne, Jonson, and Milton, for example - as well as introducing readers to a host of lesser-known figures. The book also discusses the work of numerous women writers from the period, including Aphra Behn, Ann Bradstreet, Margaret Cavendish, Lady Jane Gray, Lucy Hutchinson, Æmelia Lanyer, Isabella Whitney, and Lady Mary Wroth.

**The Oxford Handbook of Early Modern European History, 1350-1750** Hamish M. Scott,2015 This Handbook re-examines the concept of early modern history in a European and global context. The term 'early modern' has been familiar, especially in Anglophone scholarship, for four decades and is securely established in teaching, research, and scholarly publishing. More recently, however, the unity implied in the notion has fragmented, while the usefulness and even the validity of the term, and the historical periodisation which it incorporates, have been questioned. The Oxford Handbook of Early Modern European History, 1350-1750 provides an account of the development of the subject during the past half-century, but primarily offers an integrated and comprehensive survey of present knowledge, together with some suggestions as to how the field is developing. It aims both to interrogate the notion of 'early modernity' itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that 'early modern' is not simply a

chronological label but possesses a substantive integrity. Volume I examines 'Peoples and Place', assessing structural factors such as climate, printing and the revolution in information, social and economic developments, and religion, including chapters on Orthodoxy, Judaism and Islam.

**Organic Music Societies** Lawrence Kumpf,2020-10-27 Archival documents and new writings on the intermedia collaborations of avant-garde jazz trumpeter Don Cherry and textile artist Moki Cherry Don Cherry and Moki Karlsson met in Sweden in the late '60s. They married and began to perform together, dubbing their mix of communal art, social and environmental activism, children's education and pan-ethnic expression Organic Music. Their home in Tågarp became a locus of artistic production, attracting free-spirited musicians, poets, actors and artists with the promise of collective life. There, Keith Knox assembled Tågarp Publication Number One to document the collectivistic practices blooming under the Cherrys' guidance. Reproduced here, the text includes interviews with Terry Riley and Cherry, a piece on Pandit Pran Nath, a report on the Bombay Free School and a survey of the esoteric Forest University by Bengt af Kintberg. This book explores Don Cherry's work of the period through additional interviews by Knox, a piece on his Relativity Suite and an essay by Fumi Okiji. Moki's writings on her workshops are featured alongside full-color reproductions of her tapestries, used as performance environments by Don's ensembles. Cherry collaborators Bengt Berger and Christer Bothén contribute travelogues from the era.
