Preschool Clues Angela C. Santomero, Deborah Reber, 2018-04-03 The award-winning creator of Blue's Clues, Super Why!, and Daniel Tiger's Neighborhood shares the secret sauce behind her shows' powerful, transformative results in the form of eleven research-based, foundational "clues" to ensure that preschoolers flourish academically, socially, and emotionally during this critical time. The preschool years—when children are between the ages of two and five—are the most influential, important years in a child's life. Studies show that pausing to interact, playing to solve problems, diffusing with humor, and using repetition are the hidden clues conscious parents use to raise successful kids and help them learn critical thinking skills, foster empathy, and nurture their sense of self-worth. Angela C. Santomero, MA, the award-winning creator of children's television phenomena knows this better than anyone and has spent decades working to instill confidence in her young viewers. In *Preschool Clues*, she breaks down the philosophy behind her shows—educating, inspiring, and empowering kids—into concrete strategies that parents and educators can incorporate into their family and classroom to set their preschoolers up for success, such as: -Intentionally pausing to foster bonding, independence, and resilience -Developing empathy and confidence through soliciting preschoolers' help -Becoming "fluent" in the language of preschoolers: Play - Igniting your preschooler's curiosity -Being an involved co-player everyday -Designing a healthy media diet In *Preschool Clues*, Angela shares the latest research from top thinkers in child development and education. Through her practical, straightforward advice and inspiring, conversational approach, you will not only understand exactly what your children are learning from the shows they watch and why these shows are so effective, you'll know exactly how to apply these same proven approaches in your daily life and with the same powerful results.
