The Free Flag of Cuba Orville Vernon Burton, Georganne B. Burton, 2002-10-01 The wife of South Carolina secessionist governor Francis W. Pickens and known as the “Queen of the Confederacy,” Lucy Holcombe Pickens (1832–1899) was during her lifetime one of the most famous women in the South. Rumor was that in her youth she published a novel under a pseudonym. Recently discovered as *The Free Flag of Cuba; or, The Martyrdom of Lopez: A Tale of the Liberating Expedition of 1851*, her 1854 book is a romanticized account of the 1851 filibustering expedition to Cuba by Narciso López. With this new edition, Orville Vernon Burton and Georganne B. Burton resurrect Holcombe’s lost work and prove it to be a window on many pressing nineteenth-century issues. A not-so-subtle plea for U.S. support for Cuban independence from Spain, Holcombe’s novel vindicates López and his men—who were officially regarded as mercenaries—and declares them to be martyred heroes. The tale clearly reflects the values southern aristocratic women expected in men, even if preserving those values meant death and defeat—a harbinger of ardent support for the Confederacy by women like Lucy. With an illuminating introduction detailing the life of Lucy Petway Holcombe Pickens and the historical context of her novel, this new edition of *The Free Flag of Cuba* is a welcome glimpse into the mind and value system of the southern belle who would become a southern icon.

A Cultural History of Cuba during the U.S. Occupation, 1898-1902 Marial Iglesias Utset, 2011-05-30 In this cultural

history of Cuba during the United States' brief but influential occupation from 1898 to 1902--a key transitional period following the Spanish-American War--Marial Iglesias Utset sheds light on the complex set of pressures that guided the formation and production of a burgeoning Cuban nationalism. Drawing on archival and published sources, Iglesias illustrates the process by which Cubans maintained and created their own culturally relevant national symbols in the face of the U.S. occupation. Tracing Cuba's efforts to modernize in conjunction with plans by U.S. officials to shape the process, Iglesias analyzes, among other things, the influence of the English language on Spanish usage; the imposition of North American holidays, such as Thanksgiving, in place of traditional Cuban celebrations; the transformation of Havana into a new metropolis; and the development of patriotic symbols, including the Cuban flag, songs, monuments, and ceremonies. Iglesias argues that the Cuban response to U.S. imperialism, though largely critical, indeed involved elements of reliance, accommodation, and welcome. Above all, Iglesias argues, Cubans engaged the Americans on multiple levels, and her work demonstrates how their ambiguous responses to the U.S. occupation shaped the cultural transformation that gave rise to a new Cuban nationalism.

Essays on Transculturation and Catalan-Cuban Intellectual History Yairen Jerez Columbié, 2021-04-26 This book examines the cultural production of Catalan intellectuals in Cuba through a reading of texts and journeys that show the contrapuntal relationship between transcultural identities and narratives of nationhood. Both the concept of transculturation and its instrumentalization to tame conflict within nationalist projects are problematic. By uncovering and examining the contradictions between the fluid character of identities in the Cuban context of the first half of the twentieth century and nationalist discourses, within both the Catalanist community of Havana and Cuban society, this book joins wider debates about identities.
