MacArthur Competence Assessment Tool for Treatment (MacCAT-T) Thomas Grisso, Paul S. Appelbaum, 1998 The MacArthur Competence Assessment Tool for Treatment (MacCAT-T) is the product of an 8-year study of patients' capacities to make treatment decisions. It is a semi-structured interview that assists clinicians in assessing a patient's competence to consent to treatment. The process provides a patient with information about their medical/psychiatric condition, the type of treatment being recommended, its risks and benefits, as well as other possible treatments and their probable consequences. During this process, the MacCAT-T prompts the clinician to ask questions that assess the patient's understanding, appreciation, and reasoning regarding treatment decisions. The MacCAT-T Manual is a large-format, examiner-friendly field manual for conducting actual competency assessments. The MacCAT-T Record Form is well designed for recording, rating,

and summarizing patient responses. The training videotape, Administering the MacCAT-T, demonstrates an actual administration of the test with discussion, comments, and annotations by Drs. Grisso and Appelbaum. The book, Assessing Competence to Consent to Treatment, describes the place of competence in the doctrine of informed consent, analyzes the elements of decision making, and shows how assessments of competence to consent to treatment can be conducted within varied general medical and psychiatric treatment settings. Includes numerous case studies.

Families Caring for an Aging America National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Family Caregiving for Older Adults, 2016-11-08 Family

caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

The Immortal Life of Henrietta Lacks Rebecca Skloot, 2010-02-02 #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in

medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Some remedies, such as changing your diet to deal with heartburn or adapting your home environment to cope with chronic pain, may seem like common sense. You may have questions about when to apply heat or cold to injuries, what helps relieve the itch of an insect bite, or whether certain herbs, vitamins or minerals are really effective against the common cold or insomnia. You'll find these answers and more in *Mayo Clinic Book of Home Remedies*. In situations involving your health or the health of your family, the same questions typically arise: What actions can I take that are immediate, safe and effective? When should I contact my doctor? What symptoms signal an emergency? *Mayo Clinic Book of Home Remedies* clearly defines these questions with regard to your health concerns and guides you to choose the appropriate and most effective response.
