**Celebrating Birds** Natalia Rojas, Ana Maria Martinez, 2021-04-06 A gorgeously illustrated and interactive full-color guide to more than 181 birds of North America, based on the bestselling board game, Wingspan. Praised for its gorgeous illustrations, accurate portrayal of bird habitats, and its gameplay, the bird-focused board game Wingspan has become an international sensation, available in a dozen languages and selling more than 200,000 copies its first year. Celebrating Birds is the ultimate companion to the game for fans, as well as a beautiful and in-depth field guide for avian and nature enthusiasts. In addition to large-size representations of each bird and the most up-to-date bird descriptions provided by Cornell Lab of Ornithology, Celebrating Birds includes a step-by-step guide that can be used to take the game into the real world. Players can collect points based on the birds, nests, and various habitat and feeding clues they find outside. Artists and best friends Natalia Rojas and Ana Maria Martinez collaborated to create the beautiful depictions featured in the original Wingspan board game. Celebrating Birds features larger illustrations of the 170 North American birds from the game, plus eleven exciting new birds. With Celebrating Birds, players and amateur naturalists can discover details about many of the birds currently at risk for extinction. As the number of birds in the United States and Canada has declined precipitously, Celebrating Birds is a fun way to raise awareness, educate, encourage activism, and provide resources on some of the most important ecological issues facing us today.
