Picturing Argentina: Myths, Movies, and the Peronist Vision Currie K. Thompson,2014-05-28 Although Juan Domingo Perón's central role in Argentine history and the need for an unbiased assessment of his impact on his nation's cinema are beyond dispute, the existing scholarship on the subject is limited. In recent decades Argentina has witnessed a

revival of serious film study, some of which has focused on the nation's classical movies and, in one case, on Peronism. None of this work has been translated into English, however. This is the first English-language book that offers an extensive assessment of Argentine cinema during first Peronism. It is also the first study in any language that concentrates systematically on the evolution of social attitudes reflected in Argentine movies throughout those years and that assesses the period's impact on subsequent filmmaking activity. By analyzing popular Argentine movies from this time through the prism of myth-second-order communication systems that present historically developed customs and attitudes as natural—the book traces the filmic construction of gender, criminality, race, the family, sports, and the military. It identifies in movies the development and evolution of mindsets and attitudes that may be construed as Peronist. By framing its consideration of films from the Perón years in the context of earlier and later ones, it demonstrates that this period accelerates—and sometimes registers backward-looking responses to—earlier progressive mythic shifts, and it traces the development in the 1950s of a critical mindset that comes to fruition in the new cinema of the 1960s. *Picturing Argentina: Myths, Movies, and the Peronist Vision* is an important book for Latin American studies, film studies, and history collections.

A Capitalism for the People Luigi Zingales, 2014-02-11 Born in Italy, University of Chicago economist Luigi Zingales witnessed firsthand the consequences of high inflation and unemployment—paired with rampant nepotism and cronyism—on a country's economy. This experience profoundly shaped his professional interests, and in 1988 he arrived in the United States, armed with a political passion and the belief that economists should not merely interpret the world, but should change it for the better. In *A Capitalism for the People*, Zingales makes a forceful, philosophical, and at times personal argument that the roots of American capitalism are dying, and that the result is a drift toward the more corrupt systems found throughout Europe and much of the rest of the world. American capitalism, according to Zingales, grew in a unique incubator that provided it with a distinct flavor of competitiveness, a meritocratic nature that fostered trust in markets and a faith in mobility. Lately, however, that trust has been eroded by a betrayal of our pro-business elites, whose lobbying has come to dictate the market rather than be subject to it, and this betrayal has taken place with the complicity of our

intellectual class. Because of this trend, much of the country is questioning—often with great anger—whether the system that has for so long buoyed their hopes has now betrayed them once and for all. What we are left with is either anti-market pitchfork populism or pro-business technocratic insularity. Neither of these options presents a way to preserve what the author calls “the lighthouse” of American capitalism. Zingales argues that the way forward is pro-market populism, a fostering of truly free and open competition for the good of the people—not for the good of big business. Drawing on the historical record of American populism at the turn of the twentieth century, Zingales illustrates how our current circumstances aren't all that different. People in the middle and at the bottom are getting squeezed, while people at the top are only growing richer. The solutions now, as then, are reforms to economic policy that level the playing field. Reforms that may be anti-business (specifically anti-big business), but are squarely pro-market. The question is whether we can once again muster the courage to confront the powers that be.
