*Strengthening Forensic Science in the United States* National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the*

United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

*Estate Planning for Forest Landowners* William C. Siegel, 2009 The purpose of this book is to provide guidelines and assistance to nonindustrial private forest owners and the legal, tax, financial, insurance, and forestry professionals who serve them on the application of estate planning techniques to forest properties. The book presents a working knowledge of the Federal estate and gift tax law as of September 30, 2008, with particular focus on the unique characteristics of owning timber and forest land. It consists of four major parts, plus appendices. Part I develops the practical and legal foundation for estate planning. Part II explains and illustrates the use of general estate planning tools. Part III explains and illustrates the use of additional tools that are specific to forest ownership. Part IV describes the forms of forest land ownership, as well as the basic features of State transfer taxes and the benefits of forest estate planning. The appendices include a glossary and the Federal forms for filing estate and gift taxes.
