**Reno, Las Vegas, and the Strip** Eugene P. Moehring, 2024-01-15 Eugene P. Moehring analyzes the development of Reno and Las Vegas since 1945 with special emphasis on the years after 1970. Major factors that shaped the development of both cities were the growth of corporate gaming and megaresorts and increased personal leisure and affluence. Moehring provides an engaging, informative, and readable history of the divergent paths that Reno and Las Vegas took over the past forty years. Reno, the nation's gambling mecca in the 1950s, led the way, developing the successful tourist economy that Las Vegas later embraced. Through the 1970s the two cities resembled each other greatly, but Las Vegas grew to achieve global significance, while Reno slowly declined, searching for new industries to power its future. Moehring shows that the development of the Las Vegas Strip was crucial to southern Nevada's success. The casinos, hotels, and entertainments of the Strip, and the workers they supported, formed a new urban center ringed by offices, residences, shopping, and a major university. In effect, it became a third metropolis, governed by county commissioners, larger than Reno and Las Vegas combined. Moehring brings the story of the three cities to the present day, examining lessons learned from the Great Recession and the efforts under way in all three metropolises to diversify their economies. Moehring makes an important contribution with the only current study of Nevada's cities, focusing on urban development issues rather than social history or the gaming industry. As the service economy continues to grow, not only in Nevada but throughout the United States, Moehring's work has many implications for urban studies and particularly the study of urban development in other metropolitan areas.

**Judgmental Maps** Trent Gillaspie,2016-11-08 Your City. Judged A sharp tongued and fierce witted full-color collection of maps of America's greatest cities in all their brutally honest glory. When you move to a new city you look at a map to get you where you need to be, but a Google Map of San Francisco won't tell you where you can get "Real Dim Sum" or where "The Worst Trader Joes Ever" is. Or if you're visiting Chicago, you might want to see the Magnificent Mile, but not know it's right next to where "Suburbanites Buy Drugs" and "Retired Mafioso." This is where Judgmental Maps comes in - a no holds barred look at city life that is at once a love letter and hate mail from the very people who live there. What started as a joke between comedian Trent Gillaspie and his friends in Denver, quickly grew into a viral sensation with a rabid and enthusiastic community labeling maps of their cities with names and descriptions we all think of, but are a bit too shy to say out loud. Collected here in a full color, beautifully packaged book with all new, never before published material, Judgmental Maps is laugh out loud funny from New York to Los Angeles, Minneapolis to Atlanta and offending everyone else in between.
