Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Fair Play Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is *Fair Play*: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out

what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

Someday Is Not a Day in the Week Sam Horn, 2019-03-12 Inspired me to ask myself why and to stop postponing the forgotten dreams. —Geneen Roth, #1 New York Times bestselling author of *Women Food and God* and *This Messy Magnificent Life* Full of inspirational insights and advice, lifehacks, and real-world examples, *Someday is Not a Day in the Week* is CEO Sam Horn’s motivational guide to help readers get what they want in life today rather than someday. Are you: • Working, working, working? • Busy taking care of everyone but yourself? • Wondering what to do with the rest of your life? • Planning to do what makes you happy someday when you have more time, money, or freedom? What if someday never happens? As the Buddha said, “The thing is, we think we have time.” Sam Horn is a woman on a mission about not waiting for SOMEDAY ... and this is her manifesto. Her dad’s dream was to visit all the National Parks when he retired. He worked six to seven days a week for decades. A week into his long-delayed dream, he had a stroke. Sam doesn’t want that to happen to you. She took her business on the road for a Year by the Water. During her travels, she asked people, “Do you like your life? Your job? If so, why? If not, why not?” The surprising insights about what makes people happy or unhappy, what they’re doing about it (or not), and why...will inspire you to carve out time for what truly matters now, not later. Life is much too precious to postpone. It’s time to put yourself in your own story. The good news is, there are “hacks” you can do right now to make your life more of what you want it to be. And you don’t have to be selfish, quit your job, or win the lottery to do them.

Sam Horn offers actionable, practical advice in short, snappy chapters to show you how to get started on your best life — now.
