Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Training Strategies for Crisis and Hostage Negotiations Arthur A. Slatkin, 2009 Training Strategies for Crisis and Hostage Negotiations was written for trainers who are tasked with providing role play: scenario-driven training that is challenging, novel, interesting, varied, and motivating. A trainer may play a larger role as leader, expert, teacher, coordinator, planner, facilitator, resource manager/librarian, observer/evaluator, talent agent/developer, and as a liaison with local, regional, and national groups. Role play remains the principal resource as the most effective way to train negotiators. Both novice and experienced and scenarios can be written in any number of ways, with role plays having endless possible variations that provide needed practice under controlled circumstances. Role play has been employed in numerous and diverse settings in the behavioral sciences, government, military, medicine, and business, affording needed practice under these controlled circumstances. The book observes training plans, goals and objectives, roles of trainers, scenario writing, subjects and realistic guidelines for role players, creative variations for role play practice, plus feedback

and evaluation. The author adds knowledge about constructing scenarios that teach and challenge, making role plays more powerful and enlivening. Foundation material is included about the role of the trainer, the trainee, adult learning, and the important process of evaluation and the creative use of role play. The author presents a constant review and application of fundamentals in the negotiation world that has produced successful resolutions and competent, skilled negotiators.
