Humour Translation in the Age of Multimedia Margherita Dore,2020-11-02 This volume seeks to investigate how humour translation has developed since the beginning of the 21st century, focusing in particular on new ways of communication. The authors, drawn from a range of countries, cultures and academic traditions, address and debate how today's globalised communication, media and new technologies are influencing and shaping the translation of humour. Examining both how humour translation exploits new means of communication and how the processes of humour translation may be challenged and enhanced by technologies, the chapters cover theoretical foundations and implications, and methodological practices and challenges. They include a description of current research or practice, and comments on possible future developments. The contributions interconnect around the issue of humour creation and translation in the 21st century, which can truly be labelled as the age of multimedia. Accessible and engaging, this is essential reading for advanced students and researchers in Translation Studies and Humour Studies.

The Palgrave Handbook of Global Sustainability Robert Brinkmann,2023-04-04 The field of sustainability continues to evolve as a discipline. The world is facing multiple sustainability challenges such as climate change, water depletion, ecosystem loss, and environmental racism. The Handbook of Sustainability will provide a comprehensive reference for the field that examines in depth the major themes within what are known as the three E's of sustainability: environment, equity, and economics. These three themes will serve as the main organizing body of the work. In addition, the work will include sections on history and sustainability, major figures in the development of sustainability as a discipline, and important organizations that contributed or that continue to contribute to sustainability as a field. The work is explicitly global in scope as it considers the very different issues associated with sustainability in the global north and south

Commercial Communication in the Digital Age Gabriele Siegert,M. Bjørn Rimscha,Stephanie Grubenmann,2017-04-10 In today's digital age, online and mobile advertising are of growing importance, with advertising no longer bound to the traditional media industry. Although the advertising industry still has broader access to the different measures and channels, users and consumers today have more possibilities to publish, get informed or communicate - to "co-create" -, and to reach a bigger audience. There is a good chance thus that users and consumers are better informed about the objectives and persuasive tricks of the advertising industry than ever before. At the same time, advertisers can inform about products and

services without the limitations of time and place faced by traditional mass media. But will there really be a time when advertisers and consumers have equal power, or does tracking users online and offline lead to a situation where advertisers have more information about the consumers than ever before? The volume discusses these questions and related issues.

The Rhetoric of Social Movements Nathan Crick,2020-09-22 This collection provides an accessible yet rigorous survey of the rhetorical study of historical and contemporary social movements and promotes the study of relations between strategy, symbolic action, and social assemblage. Offering a comprehensive collection of the latest research in the field, *The Rhetoric of Social Movements: Networks, Power, and New Media* suggests a framework for the study of social movements grounded in a methodology of slow inquiry and the interconnectedness of these imminent phenomena. Chapters address the rhetorical tactics that social movements use to gain attention and challenge power; the centrality of traditional and new media in social movements; the operations of power in movement organization, leadership, and local and global networking; and emerging contents and environments for social movements in the twenty-first century. Each chapter is framed by case studies (drawn from movements across the world, ranging from Black Lives Matter and Occupy to Greek anarchism and indigenous land protests) that ground conceptual characteristics of social movements in their continuously unfolding reality, furnishing readers with both practical and theoretical insights. *The Rhetoric of Social Movements* will be of interest to scholars and advanced students of rhetoric, communication, media studies, cultural studies, social protest and activism, and political science.

Tech-Savvy Reading Promotion Nancy J. Keane,2019-04-17 Unleash new possibilities for reading promotion and readers' advisory with these technological tools that can help you to catch the interest of young readers and direct them

toward positive reading experiences. Gone are the days of browsing library bookshelves—today's readers live much of their lives on their devices. Learn how to meet these young readers in their online activities by using technological tools that support independent reading and reading choices. This book shows you how to use not only more traditional social media such as Facebook and blogs but also video, audio and print applications, databases, and more. You'll learn how to use new apps such as Moovly, Koma Koma, and Booksnaps; well-known media including Twitter, Skype, Flickr, and Goodreads; and Soundcloud, Smore, Flipgrid, and ebook clubs for reading promotion and readers' advisory. For each of these technologies, you'll find a brief description of the platform, its content and applications, notes about the platform and its cost, how to use it for book promotion, and step-by-step instructions for promotional activities. Screenshots and drawings illustrate the instructions.

Italian Americans in Film and Other Media Daniele Fioretti,

The Patterns of Architecture Mark Garcia, 2009-12-21 Pattern-making is ubiquitous in both the natural and manmade world. The human propensity for pattern recognition and fabrication is innate. Encompassing the historical, vernacular and parametric, this title explores the creation, materialisation and theorisation of some of the world's most significant and spectacularly patterned spaces. It investigates how interiors, buildings, cities and landscapes are patterned through design, production and manufacturing, use, time, accident and perception. It also brings into focus how contemporary advanced spatial practices and CAD/CAM are now pushing patterns to encompass a greater range of structural, programmatic, aesthetic and material effects and properties. Extending patterns far beyond the surface notion of style and decoration, *Patterns of Architecture* assesses how and why the deployment of patterns is shaping the future of architecture. Analysed through a multidisciplinary and international series of essays and designs from architects, engineers, academics, researchers and expert professionals in the field. Key contributors include: Hanif Kara, Patrik Schumacher and Alejandro Zaera-Polo.

Persuasion in the Media Age Timothy Borchers, 2021-09-14 *Persuasion in the Media Age* addresses the impact of electronic media on the practice of persuasion and reviews constantly evolving digital strategies. Today's world demands a new perspective on persuasion—one that is grounded in the assumption that human consciousness and culture have been forever altered by communication technology. The fourth edition provides timely examples of persuasion in political campaigns, social movements, marketing, and interpersonal relationships—and the role of social media and media technologies in all of the contexts. From advertisers to politicians to influencers to friends, persuaders use increasingly sophisticated strategies to sway behavior. Borchers skillfully weaves theory, research, and engaging examples to help readers understand the practice of social influence—and to apply critical-thinking skills to the persuasion they encounter daily. The text takes an interdisciplinary approach to provide the latest thinking on persuasion while also drawing on a broad theoretical base for foundational concepts, such as attitudes, rhetoric, and human motivation. Throughout, Borchers

emphasizes audience, storytelling, visual images, and ethics. This comprehensive, insightful, and accessible overview of persuasive communication teaches readers how to be skilled creators of persuasive messages—as well as critical consumers.

Build Chatbot Interactions Daniel Pritchett, 2019-06-13 The next step in the evolution of user interfaces is here. Chatbots let your users interact with your service in their own natural language. Use free and open source tools along with Ruby to build creative, useful, and unexpected interactions for users. Take advantage of the Lita framework's step-by-step implementation strategy to simplify bot development and testing. From novices to experts, chatbots are an area in which everyone can participate. Exercise your creativity by creating chatbot skills for communicating, information, and fun. Developers of all skill levels can craft user experiences that are natural, easy to use, and most of all, fun. Build chatbots using free, open source tools and launch them to popular chat platforms like Slack and Amazon's Alexa. Use the Ruby programming language and the Lita bot framework to unlock fun and powerful chat abilities such as sending text messages and emails, creating new meme images, driving a robot around the room, and talking out loud on a home speaker. Use frameworks available in Ruby and Node.js to get started quickly. Create simple chatbot skills that respond quickly to basic requests. Chain skills together for more complex interactions. Take advantage of test-driven development techniques to build your bots with confidence. Coordinate tasks with colleagues via bot. Connect with external APIs to provide users with data they need. Extract data information from web pages when an API isn't available. Expand your bot's reach with SMS and e-mail messaging. Deploy a chatbot to a host so users can interact with it on their schedule. Build a more responsive, easy-to-use interface for your users today. What You Need: You don't need much to get started with chatbots. A Mac or Linux computer with a recent version of Ruby is recommended. Windows users can keep up with a free virtual machine running Linux. You'll deploy your chatbots for free (or at least cheaply) on cloud hosting platforms like Heroku and Digital Ocean.

Think Again Adam Grant, 2023-12-26 #1 New York Times Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I've never felt so hopeful about what I don't know.”
—Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead* The #1 New York Times bestselling author of

Hidden Potential, Originals, and Give and Take examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life. Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

Post Memes Daniel Bristow, Alfie Bown, 2019 Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, trololololol, mode of critique, mode of production, means of politicisation, even of subjectivation - memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of conveyance for the alt-right, the irony left, and the apoliticals alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. *POST MEMES: SEIZING THE MEMES OF PRODUCTION* takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens, Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay

volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon. ABOUT THE EDITORS ALFIE BOWN is the author of several books including *The Playstation Dreamworld* (Polity, 2017) and *In the Event of Laughter: Psychoanalysis, Literature and Comedy* (Bloomsbury, 2018). He is also a journalist for the Guardian, the Paris Review, and other outlets. DAN BRISTOW is a recovering academic, a bookseller, and author of *Joyce and Lacan: Reading, Writing, and Psychoanalysis* (Routledge, 2016) and *2001: A Space Odyssey and Lacanian Psychoanalytic Theory* (Palgrave, 2017). He is also the co-creator with Alfie Bown of *Everyday Analysis*, now based at New Socialist magazine.

Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Dog Shaming Pascale Lemire, 2013-09-24 Based on the runaway web phenomenon (dogshamingdotcom), *Dog Shaming* features the most hilarious, most shameful, and never-before-seen doggie misdeeds. Our dogs are our best friends. They are always happy to see us. They comfort us in our times of need. They also eat our shoes, stain our carpets, and embarrass us in front of our guests. Dog owners everywhere have found their outlet in *Dog Shaming*, where they can confess their dogs' biggest (and often grossest!) sins, which turn out to be recognizably universal—complete with snapshots of ridiculously cute but shamed pups who don't seem capable of humping humans, pooping on pillows, or snagging steak straight from a grill. So share in the shaming and laugh through your frustration as *Dog Shaming* reminds us that unconditional love goes both ways.

Designing Writing Assignments Traci Gardner, 2008 Effective student writing begins with well-designed classroom assignments. In *Designing Writing Assignments*, veteran educator Traci Gardner offers practical ways for teachers to develop assignments that will allow students to express their creativity and grow as writers and thinkers while still addressing the many demands of resource-stretched classrooms.

Searchable Talk Michele Zappavigna, 2018-05-17 Metadata such as the hashtag is an important dimension of social media communication. Despite its important role in practices such as curating, tagging, and searching content, there has been little research into how meanings are made with social metadata. This book considers how hashtags have expanded their reach from an information-locating resource to an interpersonal resource for coordinating social relationships and expressing solidarity, affinity, and affiliation. It adopts a social semiotic perspective to investigate the communicative

functions of hashtags in relation to both language and images. This book is a follow up to Zappavigna's 2012 model of ambient affiliation, providing an extended analytical framework for exploring how affiliation occurs, bond by bond, in online discourse. It focuses in particular on the communing function of hashtags in metacommentary and ridicule, using recent Twitter discourse about US President Donald Trump as a case study. It is essential reading for researchers as well as undergraduates studying social media on any academic course.
