Axiom Bill Hybels, 2008 The best leaders not only lead well but also reflect on their leadership long enough and thoughtfully enough to articulate the philosophies that cause them to do so. Whether serving in the marketplace or in ministry, as executives or rank-and-file employees, as salaried staff or volunteer servants, good leaders can pinpoint the rationale for their actions and decisions with the ease of reciting their home address. In *Axiom*: author Bill Hybels divulges the God-given convictions that have dictated his leadership strategy for more than three decades as senior pastor of Willow Creek Community Church. Oriented toward four key leadership categories ... 1. Vision and strategy ('Promote Shameless Profitability, 'Take a Flyer') 2. Teamwork and communication ('Obi-Wan Kenobi Isn't for Hire, 'Disagree without Drawing Blood') 3. Activity and assessment ('Develop a Mole System, 'Sweat the Small Stuff') 4. Personal integrity ('Admit Mistakes, and Your Stock Goes Up, 'Fight for Your Family') ... *Axiom* brokers accessible wisdom from one leader's journey, as well as emboldens you to nail down the reasons why you lead like you lead.

**An Illustrated Guide to Income in the United States** Catherine Mulbrandon,2013-03-15 In this book, Mulbrandon combines her expertise in both economics and design to illustrate the economy of the United States using income as a lens. Economic data is plentiful and yet often it does not receive the attention of designers skilled in creating data graphics. The clear and cleverly designed graphics in *An Illustrated Guide to Income in the United States* present data in a manner that helps us understand what the numbers really mean. In addition to compiling and analyzing core data from various government agencies the author gathers information from multiple sources including academics and firms specializing in labor market data. You'll find important and helpful perspectives, fun facts, and answers about how income is distributed throughout the United States.-Who are the top earners in the country (and what is their income)?-What's the impact of stock options on income?-What are the demographics of different income earners?-Which industries have the greatest job growth?-How has income distribution changed over the last decades?-Which counties have the highest income levels? Which have the highest poverty rates?-How have standards of living changed over the last 100 years? Over the last 40 years?-How do the incomes of celebrities, CEOs and Hedge Fund Managers compare?

**Polysecure** Jessica Fern,2020-10-23 Attachment theory has entered the mainstream, but most discussions focus on how we can cultivate secure monogamous relationships. What if, like many people, you're striving for secure, happy attachments with more than one partner? Polyamorous psychotherapist Jessica Fern breaks new ground by extending attachment theory into the realm of consensual nonmonogamy. Using her nested model of attachment and trauma, she expands our understanding of how emotional experiences can influence our relationships. Then, she sets out six specific strategies to help you move toward secure attachments in your multiple relationships. *Polysecure* is both a trailblazing theoretical treatise and a practical guide.

**Early Lakewood** Robert Autobee,Kristen Autobee,2011 Since Lakewood's settlement in the 1860s, it has been a community in search of an identity, fluctuating from farm center to factory town, from Denver streetcar suburb to the map's stopover point between the big city and the Front Range of the Rocky Mountains. Once known for its fruit orchards and dairy and poultry farms, Lakewood in modern times has been home to the western third of the nation's longest commercial street, Colfax Avenue, and houses more federal agencies than any community outside of Washington, DC. Most of the buildings associated with Lakewood's agricultural and manufacturing past are gone, but the can-do spirit of the men and women who

forged and fashioned the city's destiny as a microcosm of western American life from the mid-19th to mid-20th centuries is recalled in these pages.

**Case Formulation in Emotion-focused Therapy** Rhonda N. Goldman, Leslie S. Greenberg, 2015 Emotion-focused therapy (EFT) views clinical disorders as, at base, emotional disorders. Case formulation in EFT represents an organizing framework and a map to help therapists specifically address these emotional problems. This book presents a detailed, concrete, step-by-step process for constructing an emotion-focused case formulation, ready for use with clients. EFT case formulation focuses on the client's narrative content (the stories they tell) as well as emotional processing (how the client feels). By attending to the interaction between these two things and paying particular attention to the painful emotion underlying the presenting problem, therapists can make moment-to-moment decisions about how to proceed in therapy. As a result, clients change maladaptive emotions and create more adaptive meaning of events and feelings. The chapters present each stage of case formulation in depth, followed by case examples that apply the case formulation method to a cross-section of clinical disorders, including depression, anxiety, trauma, and eating disorders.

**Transfigurations** Asbjørn Grønstad, 2008 In many senses, viewers have cut their teeth on the violence in American cinema: from Anthony Perkins slashing Janet Leigh in the most infamous of shower scenes; to the 1970s masterpieces of Martin Scorsese, Sam Peckinpah and Francis Ford Coppola; to our present-day undertakings in imagining global annihilations through terrorism, war, and alien grudges. *Transfigurations* brings our cultural obsession with film violence into a renewed dialogue with contemporary theory. Grønstad argues that the use of violence in Hollywood films should be understood semiotically rather than viewed realistically; *Transfigurations* thus alters both our methodology of reading violence in films and the meanings we assign to them, depicting violence not as a self-contained incident, but as a convoluted network of our own cultural ideologies and beliefs.
